

# VIBRANT VIVID PLANT LIFE

## VASE ENHANCER NEWS

### The Power of the Vase Enhancer

When it comes to keeping your cut flowers fresh and vibrant, the key is proper nutrition, not sugar water. The **Vase Enhancer** is a **powerful plant solution** that provides the essential nutrients your flowers need to thrive for longer periods, extending their freshness well beyond what sugar water could ever do. Unlike sugar water, which can encourage the growth of bacteria in the water and degrade the flowers faster, the Vase Enhancer uses

pure nutrients that support the health of the plant. By replenishing the essential **minerals and nutrients that flowers need**, the Vase Enhancer promotes stronger stems, brighter petals, and more vibrant colors. It's designed to maximize the life of fresh cut flowers, **allowing you to enjoy them longer** without the need for constant water changes or additional additives. With the Vase Enhancer, you can treat multiple vases of flowers at three drops per vase, **making it a cost-**

**effective solution** for florists, event planners, and anyone who loves to keep their home filled with fresh flowers. Each application nourishes your flowers at the cellular level, strengthening them and enhancing

## All you need is a few drops

their natural beauty. The **result** is not only longer-lasting flowers but flowers that look healthier and more robust. For more information on the Vase Enhancer and how it works, **Contact us @**

Let the **Vase Enhancer** help your flowers stay fresh, vibrant, and full of life!
