

Vase Enhancer Full Directions

This Vase Enhancer is floral preservative aimed at keeping cut flowers hydrated, nourished, and fresh for longer periods. "GOING VIBRANT"

- **"Just a few drops will bring life to your flowers!"**: This emphasizes is that the Vase Enhancer is highly concentrated blend, and only a small amount is needed to have a positive effect on the longevity and appearance of cut flowers.
- **"Shake well before use"**: Indicates that the product's ingredients may separate when sitting, so shaking ensures the solution is evenly mixed before application.
- **"Add 2 or 3 drops to freshly cut flowers in vases"**

After shaking, you apply just a couple of drops to the vase water. This small amount is enough to nourish the flowers.

- **"Keep your blooms fresh and beautiful"**: Suggests that the product helps to maintain the freshness and appearance of the flowers for a longer period.
- **"Reapply as needed"**: As the water in the vase gets used up or changed, you should add more drops of the enhancer to continue benefiting from its effects.
