manleysolutions

Manley Solutions

Since 2004, Manley is The #1 Systems Integrator specializing in Voice and Data technology.

About MANLEY

Manley Solutions is a Registered Sales Partner with T-Mobile USA

As a leader in mobility solutions, Manley has a great deal of experience in the realm of wireless network solutions, with emphasis in **VoLTE** and VoIP, Wi-Fi, Bluetooth, and **5GNR LTE** cellular technologies. From inception to prototype, project planning to component selection, reengineering, conformance testing and certification, our clients have access to our A-Team of resources at each stage of engagement.

The team at Manley has a deep knowledge of IoT cellular technologies and solutions design. Countless companies are starting to explore IoT and the many possibilities that are associated with this innovative step in technology. The digital universe is expanding, and no longer do you need a human manning all business aspects to save you money. IoT is connecting millions of "unconnected things" to the Internet, allowing you to track and analyze data that wasn't available before.

By combining our best practices, methodologies, and tools with our industry know-how, our experienced teams help clients **design, develop and deploy** technological innovations for better business. We are committed to focusing on solutions with measurable value and transferring real knowledge to our clients.
