Return to Shopping Model

During the Pandemic OAFC was required to change the way it provided food for our clients. All clients received prepackaged bags of supplemental food once each month. Prior to the Pandemic, clients were able to select items that they needed from our cupboard shelves. Starting on September 5, 2023 we will be going back to that same shopping model, allowing our clients to select items for themselves.

Currently, clients are able to receive supplemental food on a monthly basis. As of September 5th, clients may receive supplemental food on a weekly basis.

How Will It Work?

Due to the limited space available inside the cupboard, clients will be required to wait in the parking lot until their turn to shop. Clients will be directed to enter the cupboard, sign-in and a volunteer will escort the client in the selection of available food items.

After the client has completed their shopping, the client will exit the front door and return to their car. The client will then drive to the side door for pickup.
