

Counting Critters and more!

Look at the big scene in the middle of the book.

There's an animal in this scene that doesn't appear anywhere else in the book. Can you find it? Do you know what it is? _____

What are all the types of animals on the rock at the front? _____

Can you write a verse for these pages?

*Use the back of this paper for more room to write.
(The author needed lots of room to write too!)*

Does it rhyme? Yes No

Send your verse to info@whatthesealsaw.com and the author will read it and write back to you! She'd love to hear where your imagination and curiosity take you!

Count from cover to cover.
How many can you find?

- _____ Crabs
- _____ Seagulls
- _____ Kayaks
- _____ Canadian Geese

Can you find the Canadian Flag in this book?

What kind of seal is the seal in this book?

How can you tell?

Fun Facts!

There are 33 types of seals around the world! They are found in all major bodies of water. Seals, sea lions, and walruses are all part of the pinniped family. Pinniped means flipper-footed!
