Report of Independent Registered Public Accounting Firm

To the Stockholder of World Capital Brokerage, Inc.

Opinion on the Financial Statement

We have audited the accompanying statement of financial condition of World Capital Brokerage, Inc. (the Company) as of May 31, 2023, and the related notes (collectively, the financial statement). In our opinion, the financial statement presents fairly, in all material respects, the financial position of the Company as of May 31, 2023, in conformity with accounting principles generally accepted in the United States of America.

Basis for Opinion

This financial statement is the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statement based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statement is free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statement, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statement. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statement. We believe that our audit provides a reasonable basis for our opinion.

This is the initial year we have served as the Company's auditor.

NOTES TO FINANCIAL STATEMENTS MAY 31, 2023

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF FINANCIAL STATEMENT PRESENTATION

The accompanying financial statements include the accounts of World Capital Brokerage, Inc. (the Company), a wholly owned subsidiary of AGF Holdings, Inc. (the Parent). The Company is a Colorado corporation and a registered broker-dealer with the Securities and Exchange Commission (SEC). The primary functions of the Company are to underwrite the shares of American Growth Fund, Inc. (the Fund), a diversified open-end investment company, and to function as a broker-dealer of securities. Significant accounting policies followed by the Company are:

INVESTMENT SECURITIES

Security transactions and related revenue and expense are recorded on a trade date basis. In accordance with financial reporting requirements for broker/dealers, the Company's investment securities are recorded at market value based upon quotes from brokers. Changes in unrealized appreciation or depreciation are included in revenue. Realized gains and losses are computed using the specific identification method.

COMMISSIONS

Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

INCOME TAXES

The Company and the Parent account for income taxes using the asset and liability method of accounting for income taxes. The Company files consolidated federal and state income tax returns with the Parent. An informal tax sharing agreement currently exists between the Company and the Parent. Under such agreement the tax expense or benefit recorded by the Company, including the tax effects of related assets and liabilities of affiliates, is computed as if the Company filed separate stand-alone tax returns. Such amounts are limited to tax expense or benefit recorded on a consolidated basis for the Parent. The Company's method of accounting for income taxes conforms to "Accounting For Income Taxes". This method requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial reporting basis and tax basis of assets and liabilities.

The Company evaluates tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Management of the Company has reviewed the tax positions for the open tax years ending May 31, 2020 through May 31, 2023 and has determined that there are no significant uncertain tax positions that would require recognition in the financial statements.

CONCENTRATION OF CREDIT RISK

From time to time the Company had cash balances on deposits with banks in excess of the federally insured limits. The Company believes its risk of loss is limited due to the high credit quality of such bank.

STATEMENT OF CASH FLOWS

For purposes of the statement of cash flows, the Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

USE OF ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS, continued MAY 31, 2023

The Company follows a fair value hierarchy that distinguishes market data obtained from independent sources (observable inputs) and the Company's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Company's investments and are summarized in the following fair value hierarchy.

Level 1 – quoted prices in active markets for identical securities.

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc), and

Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

Equity	Level 1	Level 2	Level 3	Total
