NOTES TO FINANCIAL STATEMENTS MAY 31, 2020

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF FINANCIAL STATEMENT PRESENTATION

The accompanying financial statements include the accounts of World Capital Brokerage, Inc. (the Company), a wholly owned subsidiary of AGF Holdings, Inc. (the Parent). The Company is a Colorado corporation and a registered broker-dealer with the Securities and Exchange Commission (SEC). The primary functions of the Company are to underwrite the shares of American Growth Fund, Inc. (the Fund), a diversified open-end investment company, and to function as a broker-dealer of securities. Significant accounting policies followed by the Company are:

INVESTMENT SECURITIES

Security transactions and related revenue and expense are recorded on a trade date basis. In accordance with financial reporting requirements for broker/dealers, the Company's investment securities are recorded at market value based upon quotes from brokers. Changes in unrealized appreciation or depreciation are included in revenue. Realized gains and losses are computed using the specific identification method.

COMMISSIONS

Commissions and related clearing expenses are recorded on a trade-date basis as securities transactions occur.

INCOME TAXES

The Company and the Parent account for income taxes using the asset and liability method of accounting for income taxes. The Company files consolidated federal and state income tax returns with the Parent. An informal tax sharing agreement currently exists between the Company and the Parent. Under such agreement the tax expense or benefit recorded by the Company, including the tax effects of related assets and liabilities of affiliates, is computed as if the Company filed separate stand-alone tax returns. Such amounts are limited to tax expense or benefit recorded on a consolidated basis for the Parent. The Company's method of accounting for income taxes conforms to "Accounting For Income Taxes". This method requires the recognition of deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the financial reporting basis and tax basis of assets and liabilities.

The Company evaluates tax positions taken or expected to be taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Management of the Company has reviewed the tax positions for the open tax years ending July 31, 2017 through May 31, 2020 and has determined that there are no significant uncertain tax positions that would require recognition in the financial statements.

CONCENTRATION OF CREDIT RISK

From time to time the Company had cash balances on deposits with banks in excess of the federally insured limits. The Company believes its risk of loss is limited due to the high credit quality of such bank.

STATEMENT OF CASH FLOWS

For purposes of the statement of cash flows, the Company considers all highly liquid investments with an original maturity of three months or less to be cash equivalents.

USE OF ESTIMATES

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reported period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS, continued MAY 31, 2020

ADOPTION OF ASU 2016-02 LEASES (TOPIC 842)

The company has adopted the ASU 2016-02 Leases (Topic 842). The company has elected to apply the short-term lease exception for our financial statements as we have a month-to-month lease. For Further details see Note 3.

2. INVESTMENT SECURITIES

On May 31, 2020, the Company's investment securities had an aggregate cost basis of \$1,050,968 and a market value of \$2,432,149 resulting in an unrealized gain of \$1,381,181.

The Company follows a fair value hierarchy that distinguishes market data obtained from independent sources (observable inputs) and the Company's own market assumptions (unobservable inputs). These inputs are used in determining the value of the Company's investments and are summarized in the following fair value hierarchy.

Level 1 – quoted prices in active markets for identical securities,

Level 2 – other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc), and

Level 3 – significant unobservable inputs (including the Company's own assumptions in determining the fair value of investments).

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities.

The following is a summary of the inputs used, as of May 31, 2020, in valuing the Company's assets carried at fair value:

 Equity	Level 1	Level 2	Level 3	Total
Entertainment	\$ 1,070,949	\$ 0	\$ 0	\$ 1,070,949
Apparel Manufacturing	523,687	0	0	523,687

4. MINIMUM NET CAPITAL

Pursuant to Rule 15c3-1 of the Securities Exchange Act of 1934, the Company, as a registered securities broker/dealer, is required to maintain a minimum net capital of the greater of \$250,000 or 6 2/3% of "aggregate indebtedness," as defined in such rule. On May 31, 2020, the Company had net capital of \$1,198,862 which was \$948,862 in excess of its required net capital of \$250,000. The Company's ratio of aggregate indebtedness to net capital at May 31, 2020 was 0.4113 to 1.

5. COMMISSIONS RECEIVABLE

Commissions paid to broker/dealers through deferred sales charges, for the sale of Fund shares, are recorded as commissions receivable. The Company receives from the Fund a monthly distribution fee based on the Fund's daily net assets. Commissions receivable are recovered through the receipt of the distribution fee and redemption charges, if any, related to Fund shares subject to contingent deferred sales charges.

6. INCOME TAXES

The provision for income taxes consists of the following:

Current Expense	
Federal	\$ 3,650
State	850
	 4,500
Deferred Expense	
Federal	(86,910)
State	 (23,418)
Total	\$ (110,328)

The deferred tax liability results from unrealized appreciation of investments and change in corporate tax law.

7. SUBSEQUENT EVENTS

In preparing these financial statements, the Company has evaluated events and transactions for potential recognition or disclosure through the date these financial statements were issued. There were no events or transactions that occurred during the period that materially impacted the amounts or disclosures in the Company's financial statements.

In early 2020, an outbreak of a novel strain of coronavirus (COVID-19) emerged globally. As a result, there have been mandates from federal, state, and local authorities resulting in an overall decline in the economic activity.

Management is currently evaluating the recent introduction of the COVID-19 virus and its impact on the financial services industry and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company's investments and result of its operations; the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.
