

Inspirations from Nature

Our eyes are used to admiring natural colour schemes. Which is why, for this exterior shade card we have taken inspiration from the environment around us. Nature presents us with a colour palette that is not only infinite, but colours with endless combinations. Air, water, earth and sky, and all things natural can be amazing, accessible and free sources of colour inspiration.

So, bring the great outdoors inside ! Take your hue cues from Mother Nature and build decorating themes and colour schemes that are sure to please through every season.

Painting Process

SURFACE INSPECTION – Before painting the exterior walls, undertake repairs of all surface imperfections – cracks, leakages, undulations and rusting from drainage pipes.

SCRAPING – Remove all loose paint, dirt, salt deposits as well as fungus, algae and moss alternatively by wire brushing the surface.

Berger Recommended Tool : Express Painting Sander with Paint Scraper attachment.

SURFACE CLEANING – If required apply Bio-wash to remove fungal/algae/mold growth. Apply **WeatherCoat Bio-wash** and leave it on for minimum 1 day. Wash the scraped surface thoroughly and allow it to dry.

Berger Recommended Tool : Express Painting Jet Washer.

CRACK BRIDGING – For filling cracks up to 5 mm use **Home Shield Crack Fill Paste**. For wider cracks, use **Home Shield Advance Latex Plus**, as per the product usage guidelines.

WATERPROOFING – If required apply **Home Shield Latex Shield 2K** on the affected areas as per the product usage guidelines.

PUTTY APPLICATION – Apply 2 coats of **Bison Wall Putty** with 4-6 hours of drying time. For enhanced waterproofing, application of **Home Shield Waterproof Putty** is recommended.

PRIMER COAT – Apply 1 coat of **Seal-O-Prime**, an alkali resistant primer with sealing and priming properties. Alternatively, use **WeatherCoat Exterior Primer**, an alkali resistant primer. Allow 4-6 hours of drying time between coats.

TOPCOAT – Apply 2 coats of **Berger Exterior Emulsion** as finishing coat with a drying time of 6-8 hours after each coat with recommended dilution ratio.

Berger Recommended Tools : Express Painting Airless Spray or **WeatherCoat Striped Pure Acrylic Exterior Roller** for undertaking topcoat application.

		Dilution Ratio* (by Volume)	Re-coating** Interval
Putty	Bison Putty	50%	4-6 Hrs
	Home Shield Waterproof Putty	50%	4-6 Hours
Primer	WeatherCoat Exterior Primer	100%	6-8 Hours
	Seal-O-Prime	100%	4 Hours
Top Coat	Walmasta/Walmasta XP Adv	60%	6-8 Hours
	WeatherCoat Smooth	40%	6-8 Hours
	WeatherCoat Anti Dustt	40%	6-8 Hours
	WeatherCoat All Guard	40%	6-8 Hours

* Application by Brush, Roller, Spray.

** Dilution % will vary depending on the Emulsion Bases used. Please refer product usage guidelines.
