- Slate
- Travertine
- Quartz

Areas of application

- For interior & exterior applications of all types of tiles and Natural stone surfaces
- For cleaning the leaching marks from concrete and grout surfaces

Certifications

Member of
Indian Green Building Council

MIXING AND APPLICATION:

Note: Shake the container well for one minute before opening the container for use.

- Wet the surface thoroughly using clean water.
- Apply Clenza EF to the surface with sponge, brush or mop.
- Allow the solution to dwell for 10-20 minutes while agitating periodically using appropriate scrub pad.
- Do not allow solution to dry on surface. Apply additional liquid to prevent drying.
- Extract all the dirty remains with a mop or wet vacuum system.
- Rinse the surface thoroughly with water using hose or high pressure washer.
- Multiple applications may require for heavy built-up efflorescence.

TECHNICAL DATA

Appearance	Colourless Clear Liquid
Specific gravity	1.03 – 1.06
PH	>11

Cautions:

Always protect neighboring surfaces including wood, carpet, metal, landscaping and other surfaces.
Do not mix with ammoniated cleaners or any other cleaners as harmful fumes may result.
Store in cool place away from heat and fire.
Avoid contact with skin and eyes.
Do not inhale and use it in open ventilated areas.
Do not swallow.
Please wear hand gloves, nose cover and wear eye protection before and while using the product.
KEEP OUT OF REACH OF CHILDREN.

PACKAGING:

1 litre, 5 Litres

COVERAGE:

15 to 50 sft per litre depending upon Nature and density of efflorescence.

STORAGE:

After usage, close the container well sealed to avoid contamination and damages. Store in original container only. Store and use between temperature 4° C and 40° C.

WARRANTY:

MYK LATICRETE India Pvt Ltd warrants that MYK LATICRETE® CLENZA EF is free from manufacturing defects and will not break down, deteriorate or disintegrate under normal usage for a period of One (1) year from date of manufacture subject to the terms and conditions stated in MYK LATICRETE Product Warranty

MAINTENANCE:

NOTE: All impregnating sealers and cleaners are maintenance products and hence surfaces applied with sealers need careful maintenance.

Maintenance of the sealed natural stone surfaces should not be done with general cleaner chemicals. Plain soft water is recommended to clean the surface. For periodic cleaning we recommend to use our MYK LATICRETE CLENZA AQ, neutral, water based cleaner. Acidic cleaners are STRICTLY NOT recommended. Please refer the Maintenance manual for more details.
