Berger Divisions – Highlights

Berger Paints India Ltd.

Berger Prolinks

Berger Prolinks is a range of services driven by technology aimed at providing paint and application related information to professionals such as builders, architects and designers to help them directly source Berger products, services and solutions to specific construction related problems.

Berger Express Painting

New age end-to-end painting solution for faster, cleaner and better painting experience using mechanized tools and skilled painters.

Auto & Industrial Division – Strategic alliances in Industrial Coatings with NIPPON PAINT, Orica, Australia, TIGER, AXALTA, Beckers, Becker Acroma and Promat

Major clients and industries benefiting from the division are –

- (i) Cars & MUV manufacturers
- (ii) LCV, MCV, HCV manufacturers
- (iii) 3 Wheeler manufacturers
- (iv) 2 Wheeler manufacturers

Berger Protecton – Several core industrial and infrastructural areas are protected by Berger's Protecton range of coatings.

Major clients and industries benefiting from Berger Protecton are –

- Oil & Gas refineries
- Power sector
- Infrastructure
- Chemical & Fertilizers
- Metal & Metallurgy
- Ports, Railways, Airports
- Food Processing, Pharma
- General Industries

EXTERIOR

WeatherCoat Long Life 7

Weathercoat Long Life 7 is a luxury category exterior paint with Silicon additives for all round weather protection. Its unique Silicon Technology imparts visible water repellency to the paint film and its Polymer composition doesn't allow dust to settle on the exterior walls.

- Added silicon which repels water
- High Sheen Finish
- Weather protection
- 7 years Warranty

WeatherCoat Long Life 10

WeatherCoat Long Life 10 is a luxury category exterior emulsion, the first paint to use PU & Silicon Technology. The product is designed for heavy rainfall areas and provides excellent protection against extreme rain and exterior walls issues. PU gives robust film strength and unmatched sheen to the paint film.

- PU Silicon Technology
- Protection against heavy rainfall
- All weather protection
- 10 years Warranty

WeatherCoat Champ

Weathercoat Champ is a 2-in-1 premium emulsion with Recron microfibers. It is a 100% acrylic water based paint suitable for application on both interior and exterior surfaces.

- Premium exterior and interior emulsion
- Reinforced with fibres
- Superior durability and smooth finish
- 5 years warranty

Walmasta Glow

Walmasta Glow is a water based acrylic emulsion for exterior walls. The paint provides sheen finish and superior durability as compared to regular emulsions at an incremental price. What's more, the paint comes with a performance warranty of 3 years.

- Soft Sheen finish
- Superior whiteness and hiding to a regular emulsion
- 3 years warranty

WeatherCoat Glow

WeatherCoat Glow is a 100% acrylic based emulsion that can withstand extreme weather conditions. It has unique additives and pigments which provides long lasting weather protection from rain, heat and humidity.

- Stay Clean Formula
- Rich Sheen finish
- Pure Acrylic Emulsion
- 5 years warranty

WeatherCoat Anti Dust

WeatherCoat Anti Dustt is a high performance paint with rich, soft sheen. It is formulated with special grade of acrylic emulsion and additives. The paint has unique dust repelling properties owing to the presence of Dust Guard Technology. It is also resistant to chalking, flaking, fading, algae and fungal growth. Walls painted with WeatherCoat Anti Dustt retains the look of the paint for a longer time compared to conventional exterior paint.

- Best in class dust repellence
- Sheen Finish
- Resists chalking and flaking
- 5 years warranty

Walmasta

Walmasta is a 100% water based exterior paint. The paint's formulation with special grade emulsion makes it ideal for use in dry and less humid climatic regions. It has higher resistance to cracking, fading and prevents the growth of fungus on the exterior walls. It is a matt finish paint with a lifespan of 3 years, a better alternative to 1 year life of cement paints.

- Excellent matt finish emulsion
- Protection against algal and fungal growth
- 3 years warranty

Walmasta Lite

Walmasta Lite is a modified acrylic emulsion based exterior paint suitable for moderate to dry climate. It is an economically priced paint with a matt finish. The paint is resistant to chalking, flaking, fading as well as prevents the growth of fungus and algae common to cement paint.

- The most economical exterior emulsion
- Ideal upgrade from cement paints
- 2 years warranty

WeatherCoat Tile Protector

WeatherCoat Tile Protector is a weather resistant latex based paint for bricks and roof tiles. The paint is tough, super protective 100% acrylic latex based formulation makes the surface of roof tile and bricks highly water resistant as well as protects from dampness, algae and fungi. The presence of latex in the paint give the tiles a long lasting new look.

- High Gloss Finish
- Water Resistant
- All weather protection
- High Adhesion
- Direct Shades

WeatherCoat Floor Protector

WeatherCoat Floor Protector is a pure acrylic water based paint with rich and durable finish for exterior concrete floors. It is tintable in a wide range of colours. The product is designed to maintain excellent adhesion to the substrate with very high abrasion resistance. For maintenance, normal washing of floor with water can be done at regular intervals.

- Excellent matt finish emulsion
- Protection against algal and fungal growth
- 3 years warranty

INTERIOR

Silk BreatheEasy

Silk BreatheEasy emulsion is a premium interior paint designed to give walls a premium and rich appearance. It is formulated with 100% acrylic emulsion and variant pigments together with bio resistant additives that prevent growth of fungus and algae. The paints retains fresh, glossy look for longer and has low VOC and low smell ensuring the users can occupy the room soon after application.

- Anti- Pollution : Reduces SOx NOx gases
- Anti- Bacterial - kills 99% bacteria- Approved by Indian Medical Association
- Protects Surface from Covid Virus
- Environmental friendly (Certified by Singapore Green label)and reduces Formaldehyde
- Rich Sheen Finish

Silk

Silk Luxury Emulsion has been deigned to offer a tactile experience similar to that of a silken fabric. The paint feels soft to touch, has high sheen, aesthetic and premium looks. To customers Silk is a symbol of refined taste, lifestyle and class. All of which comes alive in Berger Silk - the first luxury emulsion introduced in India. Silk is considered to be a niche brand among the range of Berger paints.

- Luxurious high sheen finish
- Silky feel & scratch resistant
- Silk Designzz (Stencils) & Silk Illusions (designer finish) are available

Easy Clean Fresh

Easy Clean Fresh is an interior wall paint designed to give your walls a durable, premium and rich appearance.

It is formulated with odour absorbing chemicals and proprietary acrylic emulsions that purifies indoor air and gives superior stain resistance to your walls. The product is resistant to fungal growth and the film retains a fresh glossy new look for longer period of time.

- Highly washable paint
- Formulated with odour absorbing chemicals with pleasant fragrance
- Soft sheen and velvety finish

Easy Clean

Easy Clean Luxury Emulsion has been formulated with special types of cross-linking polymers and fine pigments. It is formulated in a balanced manner with properties like dispersion, sheen level, anti-fungal, anti-fading and minimum porosity. It also provides high washability and is easy to maintain. The paint maintains its fresh look for years and gives a sheen finish at an affordable price.

- India's most washable emulsion with cross linking polymers
- Even stubborn oils stains can be removed with MTO
- Soft sheen & velvet finish

*available in matte finish also

Silk Glamor

Silk Glamour Emulsion is a premium interior wall paint designed to give walls a premium and rich appearance. It is formulated with tailor-made 100% acrylic emulsion, which makes it durable and retains fresh, new glossy look for a longer period of time. Silk Glamour comes in a range of regular and metallic bases, shades which can be combined to give a premium look to the interiors.

- Crystal Reflective technology, which gives Rich Sheen
- Metallica shimmer effect to the walls
- Metallic & Non Metallic shades

Rangoli

Rangoli Total Care is formulated with special types of co-polymers and fine extenders to give best in class coverage and butter like smooth finish to the walls. It enhanced bio-resistant formula prevents walls from algae and fungal attacks.

- Butter like smooth finish with stain guard property
- Special anti-microbial, anti-fungal
- High coverage and improved whiteness

TEXTURE

Florentina Glitteratti

Florentina Glitteratti is a water-based high build pure acrylic resin texture body coat providing attractive decorative effects in line with the Florentina Luxury Collection. It is a combination of carefully selected aggregate including mica and a high quality acrylic binder, imparting an excellent single or multi-coloured glitter like effect.

- Resistance to adverse weather, does not get affected by changing weather
- Prevents growth of algae and fungus
- Water resistant, presence of silicon makes it water-repellent
- UV resistant

FLORENTINA

Florentina Sandstone

Florentina Sandstone is a water-based high build pure acrylic resin texture body coat incorporating natural granite chip with pearl effect. The silicon additives enhanced for water repellence and high performance exterior wall finish.

- Resistance to adverse weather, does not get affected by changing weather
- Prevents growth of algae and fungus
- Water resistant, presence of silicon makes it water-repellent
- UV resistant

Florentina Vintage

Florentina Vintage is a high build product containing specially designed pure acrylic emulsion along with silicon for enhanced performance. The product has high resistance to mechanical damage, UV resistant and prevents damages from development of algae and fungus. Florentina Vintage helps in creating elegant finishes of trendy and natural looking designs on concrete structures.

- Resistance to adverse weather, does not get affected by changing weather
- Prevents growth of algae and fungus
- Water resistant, presence of silicon makes it water-repellent
- UV resistant

Solitaire Stone & Greanite

Is a synthetic natural stone like spray applied finish based on pure acrylic emulsion reinforced with natural coloured aggregates and quartz. Product offers great resemblance.

- Natural stone finishes
- Silicon enhanced for water repellence and highly resistant to mechanical damage
- Available in Granite and Stone variants

SOLITAIRE

Solitaire Acrylic Clear

Special pure acrylic based high performance clear lacquer has been designed as a protective coating to be applied over various textured products to enhance further the performance and aesthetic properties. Product offers excellent resistance against harsh weather conditions such as UV light, rain, humidity, temperature differences etc.

Solitaire Sparkle

Solitaire Sparkle is a water based metallic finish which gives a finish like aluminium cladding. It renders a smooth finish with sparkling as well as shimmering metallic effect. This finish has very good UV resistance and gives a durable and long lasting performance.

ILLUSIONS

Silk Design Metallica

Silk Illusions Design Metallica is a 100% acrylic emulsion paint for interior application. It is a glossy, metallic finished, special effect paint that creates a variety of effects on interior walls. Different types of designs such as combing, spatula, sponging, weaving etc. can be created using various application tools. The product has been developed to provide slow-drying characteristics so that the designs made out of it get sufficient open time for creation.

- Slow-drying characteristics give the wall a designer finish with glossy metallic effect
- Non-metallic designs can be replicated in Design Metallica

Ask for design books

Silk Marble Finish

Silk Illusions Marble Finish is a premium quality designer finish paint comprising a high percentage of emulsion and special additives to provide marble like finish on the wall. It is a 100% washable paint which is able to retain its gloss even after being cleaned.

- Water-based interior emulsion for marble finish
- Application on interior puttied/POP/wooden surfaces

Ask for design books

Silk Designzz

- 10 exclusive designs to give your walls a designer look

Silk Non-Metallica

Silk Illusions Non-Metallic Emulsions is a 100% acrylic emulsion paint for interior application. The product has been developed to provide slow-drying characteristics, so that the designs made out of it get sufficient open time for creation. The paint offers five innovative patterns to give a unique painting experience to customers.

- Special effect slow-drying paint that creates a variety of effects on interior walls

Silk Metallica

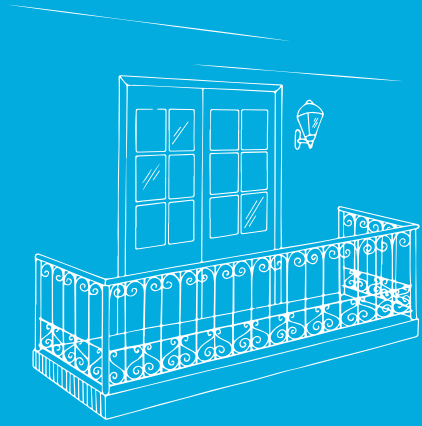

Silk Illusions Metallica is a metallic designer paint for metal, wood as well as walls. It is a premium water-based paint constituting 100% acrylic emulsion paint. The Metallica range of luxurious designer finish has non-blackening property which makes it perfect for surfaces of metal and wood. The range has two basic colors-gold and silver, out of which myriad metallic shades can be created. It can be used for both interior and exterior applications.

- Specially formulated for interior/ exterior application
- Glossy metallic finish for various applications on wall, wood and metal surfaces

Easy Clean Stencils

- Exclusive series of stencil designs to give your walls a unique look

METAL & WOOD FINISHES

Luxol 7 in 1

Berger Luxol 7 in 1 Enamel is a quick drying, super gloss, lead/chrome-free anti-corrosive PU enamel for metal, wood and masonry surfaces. It is easy to apply and offers excellent gloss and gloss retention.

- Super gloss finish
- Superior coverage
- Rust resistant
- Durability
- Green Pro Certified

Luxol Xtra

Berger Luxol XTRA Super Gloss enamel is manufactured with suitable alkyd, finest pigments and few important additives. It offers a superior mirror-like gloss with tough film and an everlasting finish, that can be used both for exterior and interior surfaces, such as mild steel, wood and suitably prepared masonry surfaces.

- Mirror-like finish
- Tough film & durability
- Superior coverage
- Green Pro Certified
- Can be tinted from colour bank

Luxol Xtra Satin

Berger Luxol XTRA Satin Enamel is a soft sheen enamel paint composed of specially formulated alkyd resin with micro fine pigments and extenders. This solvent paint is lead and heavy metal free and has anti-fungal properties. Its silken smooth glow gives long-lasting finish to both interior and exterior surfaces made of metal, wood and masonry.

- Tough film & durability
- Silken smooth finish
- Anti-fungal
- No added Lead, mercury & chromium
- Can be tinted from colour bank

Luxol Satin Enamel

Berger Luxol Satin Enamel is a solvent-based paint that gives excellent sheen finish to interior walls, wooden and metal surfaces. It provides a tough film with outstanding washable properties and durability. It is composed of specially formulated alkyd resin with micro-fine pigments and extenders which gives the surface silken smooth and glowing finish.

- Tough film
- Anti-yellowing
- Excellent washability
- High washability
- Soft sheen finish
- Durable
- Green Pro Certified

Luxol Luster

Luxol Luster is a solvent-based paint for wood, metal and wall surfaces for interiors only. It is based on specially formulated alkyd resin with microfine pigments and extenders with special types of additives and solvents. It forms a semi-gloss film with stylish pearl-like finish. The paint has excellent washable properties. On suitable roller application, it gives orange peel finish (dana finish).

- Stylish semi-gloss finish
- High cleanability
- 'Orange peel' finish
- Green Pro Certified
- Excellent Dana finish

Luxol High Gloss

Luxol High Gloss Enamel offers a mirror - like gloss to mild steel, wooden and suitable prepared masonry surfaces due to its chemical composition of alkyd and select colourants. The paint can be used for both interior and exterior surfaces.

- Mirror-like finish
- Tough film
- Durability
- Green Pro Certified

Butterfly

Butterfly Enamel is a solvent - based paint which provides very high level of gloss when applied on wooden and mild- steel surfaces. The paint can be used for both interior and exterior surfaces.

- Full gloss
- Value for money
- Green Pro Certified

Premium GP Thinner

Berger Premium GP Thinner is a specially designed thinner with 100% Pure MTO to improve brushability and flowability of oil and alkyd based products. It improves paint consistency and allows paint to acquire optimum film characteristics. It can be used as a cleaner for oil, dirt and grease of metal surface before painting.

- 100% Pure MTO (Transparent in colour)
- No Additives
- No Drying Problem
- No Hazardous Carcinogenic Substances
- Not Harmful to Skin

WOOD COATINGS

Imperia Polyester

Imperia Polyester is a 3 component Solvent based Wood Coating Product which is applied in cases where Hi-build Mirror like Unmatched Gloss finish is required. It comes in 3 parts which are mixed in unique ratio & applied by spray gun. The components are Polyester Base, Polyester Accelerator & Polyester Catalyst. It is an interior wood coating product..

- Hardest coating available for thickness of \rightarrow 1 mm
- Exhibits mighty gloss level with excellent gloss retention property
- Scratch, Stain & Water Resistant Wood Coating product.
- Same Product meant for Vertical as well as Horizontal application – it's most unique property!

Imperia Gold

It is a 2 Pack Polyurethane top coat with excellent clarity to obtain an exact match to the desired RAL shades. 180 Opaque shades in both Matt & Gloss versions.; 17 Metallic shades.

- RAL K7 Shades are obtained
- Obtain exact match to the RAL shades
- Clarity, compared to any 2:1 PU variety
- No added lead, mercury and chromium
- Best scratch resistance

Imperia Grande

It is a high performance two component Pigmented PU systems specially designed for natural wood & wood veneer. It consists of Clear Gloss Base, Clear Semi-Gloss Base, Clear Matt Base, White Gloss Base, White Matt Base & Metallic Base version of the product range.

- A quick drying specially designed PU having finest image clarity and gloss giving a wet look finish. Matt has a smooth and silky appearance
- Has lowest odour in its category
- It has the best scratch resistance in its class and holds value for money
- No added lead, mercury and chromium

Imperia

Imperia Luxury Polyurethane is available as Sealer, Matt, Semi-gloss and Gloss. Manufactured with Italian PU technology, it's clear "All in PU System" offers a highly durable finish for both exteriors and interiors. Suitable for wooden furniture, doors, window frames, wooden handicraft items and toys. Imperia seals the wood from external moisture and microbial attacks and is tintable to make designer finishes with metallic and pearl effects.

- Available in 2 Variants – Clear & White
- Clears are available in Matt, Semi Gloss/Gloss & High-Gloss
- Whites have 2 top coats – Matt/Gloss
- Clears & Whites comes in 2 forms – Sealer & top coat
- Sealers can be tinted to obtain Imperia Colour Zone shades
- All in one PU – Same PU for both Interior & Exterior

Imperia Breathe Easy

Imperia Breathe Easy Clear Matt & Clear Gloss. Water Based one component multi-coats having Antimicrobial property that removes 99.9% Germs. A very easy to apply product that can be applied even on surfaces already coated with Enamel, 2k PU, Melamine etc. Application can be done by brush or roller.

- Best in class, Truly Environment Friendly Product
- Very Easy to apply, can be applied using brush & roller
- Products are having world renowned certifications like EN71 (Toy specified), Fire Retardant, Dubai Green Building, AntiSlip Class & Emission Construction Product
- Interior Clear Multicoats & Exterior System - Antimicrobial

Woodkeeper Rainbow

Wood-keeper Rainbow Premium Polyurethane is a 2 Pack Interior Wood Coating Product that comes with compatibilizer technology with crystal clear hues. The product can be tinted from Imperia Gold machine colorants & all Imperia Gold Shades can be obtained which are meant for Interiors (except Metallic). It's a 2 component product where the top coats are – White Satin, White Gloss, Clear Satin & Clear Gloss. .

- Best in class 4:1 Interior PU available in Indian Market
- Product has unique compatibilizer technology with crystal clear hues
- Renowned RAL, NCS, CS shades can be obtained for interior wood work that will make your furniture truly stand out
- Flexible product due to its unique resin chemistry

Woodkeeper Melamine (for interiors)

It is available in Clear Variety only. It is an economic range of PU upgraded of Melamine with all the decisive parameters.

- Long lasting 2 Pack interior wood coating capable of resisting daily wear and tear
- Micronized mating agent gives a beautiful touch and feel effect
- Gloss coating providing mirror-like-finish
- Low smell, zero eye-irritation & low toxicity levels

Woodkeeper Fill-O-Dent

It is a high performance water-based putty cum wood-filler which can be used to mend imperfections like holes, dents and scratches.

- A water-based dent filler with excellent filling properties
- Good adhesion on various kinds of wood and wood-based products
- Used for both interior and exterior application
- No added lead, mercury and chromium
- Zero VOC product
- Tintable with CB Colorants to match wood colour.

Imperia Epoxy Block Primer

It is a high performance 2 component clear system, designed for natural wood and wood veneers. It is a 2 pack indigenous product applied on wood prior to the application of 2 pack PU Sealer to arrest oil/ resin/ tannin leeching in solid woods & glue leeching in MDF/ veneers/ particle boards.

- Quick drying time
- Superior stain resistant property
- Provides transparent finish to the wood
- Retain the original colour of the wood finish by arresting undesirable materials underneath
- Provides adhesion for subsequent coatings
- No added lead, mercury and chromium
- An excellent, economical & long-lasting glossy substitute for conventional French/ Lak Dana Polishing

Wood Stainer

It is used to offer a high-class look of exquisite wood like teak, walnut, mahogany, oak, ebony etc. from ordinary wood like mango, sesame etc.

- Good adhesion on various kinds of wood and wood-based products
- No added lead, mercury and chromium
- Available in 8 clean High- Chroma, Rich Hue shades
- Packed in zero-loss aluminium bottles
- Applied by soaked cloth on raw wood for grain-highlighting fashions
- The extra versions can be mixed with Imperia PU Sealer & Spray applied

Imperia Gold Glass Coating

It is a 2 Pack Glass Coatings Polyurethane with high chroma & rich hue finishes for glass decoration. Selected finishes like frost/ tinted frost are exterior durable.

- Multiple designs available with rich finish
- Designs range from transparent/opaque colors, metallic finish, special effects designs, frosted finishes

	Imperia Polyester	Imperia Gold	Imperia Grand	Imperia	Imperia Breathe Easy	Woodkeeper Rainbow
Durability	Best in class	4-5 Yrs Ext / 10-12 Yrs Int	5 Yrs Ext / 10 Yrs Int	5 Yrs Ext / 10 Yrs Int	Best in class.	Best in class 4:1 Interior PU available in the Indian Market
	Subject to Company recommended application. Not applicable for Wood/MDF/Veneer/ Particle Board with i) → 9% moisture. ii) High degree of Oil/Resin/Tannin/Glue leeching.

CONSTRUCTION CHEMICALS

PU Roofkoat

HS PU Roofkoat is one component liquid waterproofing membrane. It is solvent-free and requires cold application process. On application, it is highly elastic and UV resistance it is economical and eco-friendly. Compliant with the requirement as laid out in ASTM D 6083-97a.

- UV resistant, prevents yellowing and weathering
- Highly elastic and crack bridging
- Seamless waterproofing membrane

Kool & Seal

Weather Coat Kool & Seal is a water-based, flexible, waterproof coating for roofs/terraces/ parapets. It is formulated with 100% Acrylic Elastomeric Polymer with good crack-bridging property. The heat reflecting particles present in this product reflects visible and infrared radiation, thereby reducing heat build-up and keeping the surface cool.

- Visible radiation and IR reflecting keeps the surface cool
- Easy to clean and non staining
- Prevents algae and fungal growth

Waterproof Putty

Home Shield Waterproof Putty is white cement based premium putty with unique properties. It is a ready to use powder putty that can be applied both internally and externally on concrete/mortar substrates to get smooth aesthetic finish and extended life for topcoat paints.

- Cured surface provides excellent waterproofing showing lotus bead effect
- Cured surface shows remarkably distinct anti-efflorescent effect in comparison to traditional powder putties
- Seamless finish with capability to fill minor hairline crack and pin holes

Damp Shield Elasto

Home Shield Damp Shield Elasto is a fibre-reinforced liquid applied elastomeric waterproofing membrane, impregnated with synthetic fibre. The product is specially formulated with PU Modified Binder and fibres for extended durability in exterior application.

- Elongates cracking upto 1.5 to 2 mm
- Outstanding whiteness reflects heat, provides cooling effect on the construction
- Used for recoating repairing and maintenance

Roof Guard

Weather Coat Roofguard is a water-based coating comprising special quality acrylic polymer along with reinforcing polyester fibers which after curing forms a brilliant white colored, durable, seamless membrane-like water proofing coating over the applied surface that stops water penetration.

- Can be used as a primer on dilution with water
- Prevents cracking upto 0.7 MM
- Suitable for foot traffic on roof area

Seal-O-Prime

Seal-O-Prime is a specially formulated acrylic primer consisting of penetrative polymer that binds with the surface giving better resistance to water seepage. Its triple booster formulation fights against dampness, efflorescence and alkalinity, at the same time acting as a superior undercoat for direct topcoat application.

- Increase coverage of top coat by 15 - 20%
- Resists dampness efflorescence alkali
- 1:1 dilution with water

Dampstop

Home Shield Damp Stop is a single-pack high performance polymer modified cement-based product which forms a strong, flexible, re-dispersible polymers with special additives that work in crystalline technology and can be used for both interior and exterior purposes.

- User friendly ready to use, only water needs to be added
- Brilliant bond strength with cementitious substrate
- Able to accommodate minor surface movement and bridge hairline cracks

Latex Shield 2K

Home Shield Latex Shield 2K is a high-performance waterproof coating for water retaining structures. On curing it forms an excellent waterproof and protective elastomeric layer over the surface and thus prevents water infiltration.

- Remarkable resistance towards ingress of water
- Provides a flexible coating
- Non corrosive to steel and iron

Wall Shield 2K

It is a two component acrylic polymer modified white cement based waterproof slurry coating consisting of water insoluble crystalline micro structure which acts by deep penetration within the very small gaps of plaster.

- Remarkable resistance towards hydrostatic pressure upto 5bar
- Provides lasting protection against carbonation & efflorescence
- Excellent adhesion to Concrete, Artificial and Natural stones

Tile Adhesive

Home Shield Tile Adhesive is a ready to use polymer modified cement-based grey coloured thin bed tile adhesive, suitable especially for horizontal floor tiling on cementitious substrate and for wall tiling on plastered surface, by replacing usual sand- cement method.

- Better bonding than conventional cement based mortar
- Non sagging
- Self curing

Tile Grout

Home Shield Tile Grout is a ready mixed flexible cement based powder. The product contains additives which improve water resistance and workability. It has been specially formulated to provide low shrinkage.

- For Interior and exterior wall and floor tiling
- Excellent adhesion and non-sagging
- Suitable for all kinds of Joints in between tiles up to 8 MM width

Epoxy Tile Grout

Home Shield Epoxy Tile Grout is a two-component epoxy resin based tinteable joint filler specifically developed for use in application of ceramic tiles, vitrified tiles and stone tiles where shrinkage shall be avoided with durable waterproofing.

- Suitable for wide grouting upto 8 mm
- Can be used indoors and outdoors
- Excellent adhesion

Cementmix Plus

Home Shield Cementmix Plus is a specially formulated additive composed of cement compatible, corrosion inhibitor surface additive, polymers and other agents.

- Improving the integral waterproofing properties of cement concrete and plasters after curing
- Used as an additive for cement concrete/plasters/mortars
- Its plasticizing properties, helps concrete to become denser and prevent segregation

Latex Plus and Advanced Latex Plus

Home Shield Advanced latex Plus is Styrene-Butadiene latex-based liquid for high-performance waterproofing multipurpose repair work.

- Strong bonding with concrete brick stone etc.
- Easy to use non toxic and slightly plasticizing mortar
- Improves surface hardening and provides durability

Crack Fill Paste

Home Shield Crack Fill Paste is a ready to use flexible putty for filling cracks in plastered surfaces. It can be used for both interior and exterior surfaces.

- Easily applicable by putty knife like conventional putties
- Can be tinted with water based stainers
- Overcoatble with any paint after 24 hrs.

Epibond

Home Shield Epibond is a two - component, solvent free epoxy coating comprising epoxy resin and hardener. When the product is applied to old, cured concrete surfaces, HS Epibond provides a permanent bond for new, freshly mixed concrete, mortar. The resultant bond strength is greater than the tensile strength of concrete, which helps the total matrix to act in a monolithic fashion.

EXPRESS PAINTING TOOLS

Hand Held Sander

- Pinion gear driven sander; Avoids jerks to motor; Ensures longer working life
- 9" dia sander disc helps sand more space in shorter time
- Separate impeller system ensures proper dust suction
- 1010 W heavy duty motor ensure faster sanding

Long Handle Sander

- Pinion gear driven sander; Avoids jerks to motor; Ensures longer working life
- 9" dia sander disc helps sand more space in shorter time
- Separate impeller system ensures proper dust suction
- 1010 W heavy duty motor ensure faster sanding
- Single body + Length Extension helps sanding steadily while sanding ceiling

Airless Sprayer NEO

- Small & trendy looks but a very powerful machine
- Easy to fit accessories gets the machine ready in minutes. Very easy to use and carry
- 1400 Watt machine able to create pressure up to 110 BAR
- Best price and performance in its class

Auto Roller

- Compact model; Easy to carry; Suitable for painting interior walls
- Remote Control for controlling paint-flow
- Plush Roller head for excellent finish of emulsion paints
- 45 Watt motor + proper cleaning after use ensure consistent performance and long life

Airless Sprayer MAX

- Diaphragm Airless Sprayer in a compact and easy to assemble design; ready in minutes
- Hard wheels and folding handle for portability. Easy to move
- 1050 Watt powerful motor and Pressure adjustable system for smooth performance
- Best price and performance in its class

Multi Mixer

- Used for mixing Putty & Textures to perfect consistency
- Twin-gear technology helps faster mixing of different volumes by adjusting gear and speed
- Gear-shifting technology helps extend life of motor
- 11600 Watt motor, Mixing paddle diameter and twin gear ensure proper mixing in a faster way

Jet Washer

- 2200 Watt powerful motor cased in a strong aluminium body for consistent performance
- Compact and Powerful machine; Stable position close to ground; able to handle 100 BAR pressure
- In-built Pressure Gauge to monitor water pressure

Jet Washer NXT

- Small & trendy looks but a very powerful machine
- Easy to fit accessories gets the machine ready in minutes. Very easy to use and carry.
- 1400 Watt machine able to create pressure up to 110 BAR.
- Best price and performance in its class

Moisture Meter DM 200C

- Specially calibrated to detect and measure moisture content in concrete and plastered surfaces
- Accurately detects degree of trapped moisture in concrete floor, walls and ceilings caused by cracks, damaged pipes, rain water or underground seepage
- The scientific and accurate diagnosis helps evaluate the damage so that you can take appropriate steps to waterproof you home

Laser Distance Meter

- Handheld compact robust design with amazing features of IP54 waterproof, drop resistance offers you long life span
- Equipped with integrated electronic tilt sensor helps measure horizontal alignment with real time measuring angle
- Offers comprehensive measuring functions of area, volume, auto height, auto level etc. which can meet the measurement needs of most people and provide high quality measuring experience for you to try

Wood Sander

- Compact model; Easy to carry; Less strain; Suitable for smoothing wooden surface
- Easy to remove dust-collector
- User friendly and adjustable speed ensure proper finish
- 260 Watt motor and proper cleaning after use ensure consistent performance and long life

Furniture Mover

- Comes with a shaft and wheel attachment. There are 4 sponge and plastic inter locking load pads for scratch free and easy movement of furniture.

HOME & HYGIENE

NEW

BreatheEasy+ Floor Cleaner

BreatheEasy+ Floor Cleaner is a non-acidic specialised cleaning solution that removes 99.9% germs from the floor. It also removes tough stains including dried paint drips and leaves behind a refreshing citrus smell. The product is specially formulated to use on floors, tiles, kitchens, sinks etc., and is significantly better than phenyl solution.

- Removes 99.9% Germs
- Removes tough Stains and Paint Drips
- Pleasant Citrus Smell

NEW

BreatheEasy All Kleen

BreatheEasy All Kleen is a multi surface cleaner which works brilliantly on the toughest of the stains, removes 99.9% germs and leaves a refreshing citrus fragrance after every use. It can be used on surfaces like walls, wood, glass, plastic and metal. It helps get rid of some of the toughest stains like pencil, crayon, coffee, lipstick etc. Now breathe easy with stain free and germ free surfaces.

- Cleans toughest of stains like pencil, crayon, coffee, lipstick
- Can be used on multiple surfaces like walls, wood, glass, plastic and metal
- Removes 99.9% germs from surfaces
- Leaves behind refreshing citrus fragrance

NEW

BreatheEasy+ Virus Guard Hand Sanitizer

BreatheEasy+ Virus Guard Hand Sanitizer is an alcohol-based solution which is highly effective on viruses and bacteria. It is based on the WHO guidelines and contains 80% alcohol content. It is a rinse-free, non-sticky liquid which gives instant hand disinfection. It is also enhanced with glycerine to prevent drying of skin.

- WHO recommended, 80% alcohol
- Kills 99.9% viruses and bacteria
- Skin friendly
- Refreshing citrus fragrance

NEW

BreatheEasy Safe 24

BreatheEasy Safe 24 is a multi surface protectant spray which protects the surfaces from bacteria and viruses for 24 hours. The product is developed in collaboration with IIT Guwahati. It has advanced Nanosilver technology which forms a protective layer on surfaces and keeps it safe for full day. It is a non-toxic, non-alcoholic, environment friendly product which can be used on multiple soft and hard surfaces like door knobs, furniture, car interiors etc.

- Protects from viruses and bacteria for 24 hours
- Advanced Nanosilver ion technology
- Engineered by IIT Guwahati, truly a Made in India product
- Non-toxic, non-alcoholic, environment friendly product
- Can be used on both soft and hard surfaces

NEW

BreatheEasy+ Hand Sanitizer

BreatheEasy+ Hand Sanitizer is an alcohol-based solution which helps to disinfect and keep the hands clean. It contains 70% alcohol and is highly effective on germs. It is enhanced with humectant to prevent drying of skin.

- Kills 99.9% viruses and bacteria
- Skin friendly
- Refreshing citrus fragrance

ACCESSORIES

Roller

- 6 inch foam roller sleeve and foam available seperately
- 9 inch nut roller with handle
- Interior twin lock felt roller

Sand Paper

- Less Clogging
- Faster Cut Rate
- Superior Finish
- Better Durability
- Superior Wet Strength
- Heavy Duty Paper Backing
- Usage Area : Wall Sanding & Wood Sanding
- sheet size : 22 cm X 28 cm
- grit sizes : 60 - 1000
- 1 Packet = 50 Sheets

Brushes

- High quality synthetic bristles
- Available in 2",3",4",5" with PVC and wooden handles
- Excellent feel of bristles, Interior & Exterior, Easy to clean, Superior paint pickup and release

Masking Tape

- 0.5 Inch – 12 Rolls per tube
- 1 Inch – 6 Rolls per tube
- 2 Inch – 3 Rolls per tube
- Length – 20 m

Floor Cover

- Ensures floor are kept clean from dirt, painting droplets and dust settling during painting
- Quantity per packet- 3 pcs
- Size- 48" X 120"

Furniture Cover

- Protects valuable furniture from dust and painting spills
- Quantity per packet- (L)-5 & (S)-5
- Size- (L)54" X 156" & (S) 8" X 10"

T - Shirts

- Exclusively designed Berger Express painting branded T-shirts for painters
- Quantity per packet- 2 pcs
- Size- Large
