HISTORY OF GASTON VOLUNTEER FIRE DEPT.

Excerpts From A Bibliography
as compiled by Robert B. Roe

The Gaston Volunteer Fire Dept. was formed sometime about Feb. 1913. The Volunteers were made up of just a few of the old timers who were around to answer the alarm when sounded. The equipment consisted of a hose cart, pulled by hand. The cart carried about 50 foot of one inch hose with eighty gallons of water in two tanks. Pressure being created by mixing soda and a chemical in the water, and some of the old timers claim that it did a pretty fair job.

Our first mobile unit was a Dodge truck, used as a hose and ladder truck, and kept in the Shell Garage. This truck was later traded in on a Ford pumper. Lloyd Hall of Cornelius mounted the pumper and fire equipment on the chassis.

A bell had been used as an alarm until the war, when a siren was purchased by the city, the bell being sold to the Catholic Church. The siren first being put on top of the grocery store and later being transferred to a tall pole which we acquired from Stimson's Mill.

Around 1946 a movement spear-headed by our Mayor Bill Heesacker, R. L. Gibson and Joe McBurney was under way to try to form a Rural Fire District, to be served by the Gaston Volunteers. Through their tireless effort the District was finally formed.

It consists of a twenty-six square mile area, including homes, timber, farms and neighboring communities. From the origin of the department many trucks were bought, outfitted and traded, always striving to better the department.

At this time we have a G.M.C. 500 gallon per minute pumper, with a water tank holding 1250 gallons of water, carries 60 feet of suction hose 30 feet of 4 inch hose and 30 feet of 2 inch hose. It is one of the first in the area equipped with Pyro-Blender attachment (for fighting grass fires). It is also equipped with short wave radio to link Gaston with the rest of the county in Mutual Aid.

At this writing there are twenty active or semi-active volunteer members, headed by Fire Chief John Thorne and Assistant Chief John Berget.

We are constantly striving to better our department, to render the best possible service to our community.

Gaston, Oregon

IN APPRECIATION

On behalf of the Gaston Volunteer Firemen, the residents of Gaston and myself. I would like to take this opportunity to thank our many friends and patrons for making this book possible. Also to urge the residents of our Fire District to patronize the establishments who have made this a success.

The Gaston Jamboree

GASTON, OREGON

The Gaston Jamboree, held in mid Summer has become an annual activity for the Gaston community. Sponsored by the Tualatin Valley Commercial club as a source of income to finance it's numerous projects and to retire the indebtedness on the Gaston Community Hall. The "Jamboree" has become an entire community project. Each year a queen is selected to rule over the two day affair. Free watermellon is given away and rides, games, prizes and amusements add to the fun. The largest prize given is a huge steer which helps the winner fill his larder for the coming winter.

Coronation of the queen at the queen's ball is the highlight of the Jamboree.

The Gaston Jamboree is well attended. People from many other communities in Northwestern Oregon, look foward to attending Gaston Jamboree each year.

JUST A MINUTE!

You can read this in one minute, and by the time you have read the last line several lives will have been taken and property valued at more than \$725.00 will have been destroyed, by fire somewhere in the United States.

With fire occurring every two minutes in dwellings it is evident that fire hazards are present in every home. In nearly all homes it is largely the lack of information regarding common fire causes, and the careless habits in handling certain hazards that have brought about these conditions. Ninety per cent of all fires are preventable, for they are due to carelessness.

Let's take a look around the home, is it free from hazards, how about the attic, basement, or closets, are they free of the things which can start fires. It is nice to save things, but not if they jeopardize your home and your life or the lives of your loved ones. How about the house wiring? Your electric company will be glad to check it for you, also, the many appliances that are used daily. Fire prevention week is every week of the year.

Be awake and alert, because at this very moment, with sirens wailing, fire engines are approaching someones residence and two minutes later they will be responding to another call somewhere in the U. S. How do you know it wont be be yours? Few people think of this possibility, all they see is a drama in the roaring flames and the spectacular run of fire apparatus to fight a fire in someone else's home, and there is drama to spare in many fires, drama that all too often proves to be tragedy in the destruction of lives and cherished possessions. Just how serious it is can be judged from a statement of a metropolitan Fire Chief, that two thirds of our fire deaths occur in dwellings, and 30 per cent of the fatalities are children under ten years of age. Makes you sit up and think, doesn't it?

So, let's be fire minded, learn all we can about Fire Prevention. Your Fire Insurance Companies have helpful literature on prevention of fires, they will be more than glad to supply you with these pamphlets. Also, your local Firemen, whether they are of a paid department or the local Volunteers. They are trained in fire fighting, and schooled in Fire Prevention. Get your information from people who deal in it. If we are to depend on them in case of fire, why not depend on them for the knowledge of Fire Prevention, they will be more than glad to help.
