

Castle Moyland Tips, Hints & Errata:

Q: For the second gate, should we use 1 or 2 strands of WL 104 for the satin stitch?

A: "Use two plies if you used a high count fabric, and maybe even three plies for a lower count. The effect shall be "satin" without "gaps"...." - Martina

Q: Are the 4 gates on each side in part 5 stitched with Cafe Au Lait?

A: "The Rhodes above use GLO Flo 046, the other stitches are done with WL 104." - Martina

Q: For the outer border around the 4 triangles (In Pt3), you will notice that when stitching the cafe au lait cross stitches just under the row of black cross stiches, the symbol "4" is placed on top of some of the cafe au lait stitches. Are we suppose to stich cross stitches with cafe au lait or are we suppose to stitch the beads when we see the symbol "4"?

A: "Cori, that is for sure a nastyness of my software again - the bead has to be stitched there, omit the thread symbol please...just ignore !" - Martina
