# Capability Statement

- We supply, sustainable and innovative furniture and site furnishings solutions for public spaces and Smart Cities.
- We provide high standards in materials, products, technology, service and logistics.
- We provide results and guarantee effective and comprehensive representation of your business.
- We are a Smart City "Resultant" with an integrated approach.
- We use our innovative resources and translate your ideas into valuable concepts and solutions.
- Our firm is leading the way in the global Smart Urban & Community Design business.
- Newton Brown Urban Design has unique street and site furnishings for public space.
- Your project, ideas and final overall goals are leading. We just want to make it happen.
- We support the use of durable and sustainable materials, while using authentic products to create better environments.
- As a representative and ambassador in the USA for several international site furnishing collections and manufacturing companies; we have unique domestic partnerships to provide the best local services.
- Our goal is to provide and share knowledge to develop better concepts and results for your projects.
- Our mission statement is, "Be Smart, Think global, Act local".
