

# Care Home Digital Activity Table

# Enhancing Person-Centred Care And Wellbeing

Developing skills and friendships through connected technology is the modern environment we live in. This makes it easy for care homes to offer residents person centred care, offering them more control, more independence and helping them feel less isolated.

Many of us worry that our relatives will become increasingly isolated and immobile in old age. This unique table offers complete interconnectivity for added stimulation and social interaction. For true interactive technology to work it has to be simple and fun. With no cables and sturdy wheels this table can be shared within a care home environment enabling all residents to benefit from this fantastic technology.

With a rise in awareness of the loneliness and isolation residents can feel during their time in care homes, organisations are tackling this issue by finding new ways to keep residents engaged. The table offers an effective solution to this problem, with an intuitive touchscreen device that can be used by multiple users at once. The table comes with toughened and durable safety glass which can be wiped-clean. With a robust steel structure and sleek oak wooden finish, the table is designed to withstand intense daily use.

## Feel Engaged And Mentally Active

Keeping the elderly mentally active is essential in old age and this table delivers a wealth of activities alongside fun to be enjoyed in all environment's, private or at a care home. The possibilities are endless with Apps available for a huge range of topics from brain training, jigsaws to number games, thus providing positive stimulation for the brain and helping to maintain focus. Perhaps most importantly, for those less ambulant, all of this is accessible from the comfort of an armchair.

# Ideal For Your Activities Team

The table brings a wealth of new group activities and learning apps enabling your activities team to expand their learning and support programmes. The large library of android apps available cover:

- **Brain Training & Memory Apps**
- **Games and Puzzles**
- **Sensory & Dementia Apps**
- **Colouring Drawing & Painting**
- **Playing cards**
- **Care Home & Dementia solutions**
- **Quizzes & Trivia**
- **Music and Sing Along**
- **Watching films & TV Shows**
- **Amazon Prime & Netflix**
- **Skype - Video call family & friends**
- **Group Activities**
- **Exercise and Dancing**

Powered by an internal rechargeable battery pack lasting 8 hours on one charge, the table has a built-in Android operating system, enabling access to a rich library of software. The touchscreen and gesture control delivers an intuitive, friendly interface, allowing novices in technology to interact directly with what's happening on screen. Alongside all this fun activity the table can also be used for administration and staff training.

With 10 simultaneous touches supported, allowing more than one person to play and engage together. You can write on the screen using either their using your finger, or a touch pen. It is very simple to use.

As most family's now use phones and tablets to play games and share family information, this is an ideal companion for an elderly relative. Our 40 inch Interactive touch table is the only solution in the world with a built in battery, so it can be easily moved to different rooms. With several adjustable features to tilt the screen, it can be used vertically and raised in height for comfort by simply pressing a button. With a big 40" screen it is vibrant and easy to see assisting all levels of eye sight.

# Call today for a FREE On Site Trial

Before it is safe for us to visit your home, we can offer you an onsite trial.

Having trailed this during the Covid-19 outbreak it has proved to be a very popular way of evaluating the table whilst keeping safe. And most importantly, allowing the residents to enjoy the fun our digital table can offer to enhance their daily activities. We offer 90 minute slots either morning or afternoon.

The table is delivered safely cleaned for a self demonstration trial, with no need for any of our staff to enter your premises. The table is preloaded with 99 fun apps to play with from sensory apps and puzzles to ten pin bowling!

It will be completely disinfected, sanitised and cleaned before arrival, so you can assured that we are acting responsibly and professionally. We can also call in via video link to answer questions live.
