# LOCAL WINERIES

A winery is a business involved in the production of wine. Besides wine-making equipment, larger wineries may also feature warehouses, bottling lines, laboratories, and large expanses of tanks known as tank farms. The process involves the fermentation of fruit, as well as blending and aging of the juice by a one or more employed in-house wine makers. The grapes may be from vineyards owned by the winery or may be brought in from other locations. Most of these locations offer tastings and sometimes food.
