- Loads
250 lbs./hour Plus
- Adjustable Level Control
- Uses Compressed Air
- Moisture Filtration
System Included
- J.I.T. Style Loader
- Machine Mountable
- Sight Glass Material
View Tube
- Can also be used on
Blenders, Surge Bins or
Dry Hoppers

- Quick Release Sight
Glass Clamps
- Loader Base

The Tornado Material Loader provides low-cost, reliable material loading. Utilizing compressed air, this powerful compact loader transfers material from bags, barrels, or gaylords and loads it directly into a variety of machines or storage units. Mounted onto the machine throat, this combination loader and hopper is capable of loading up to 250 lbs. per hour. Used on storage hoppers, the Tornado can deliver 500 lbs. per hour plus!
