

NCA Aircraft Battery Pack

Tubular vented with a 117.6v maximum charge

Introducing the perfect energy solution for LSA motor gliders. These packs can be purchased with our BMS or one of your choice. The light weight NCA lithium-ion non-welded cells are vibration resistant. If they are used with our onboard charging system - the cycle life is nearly endless. Safety is maximized by using a smaller twin motor setup with counter rotating props.

Size:

28S8P: 9.250 wide x 12.750 long (23.5cm x 32.5cm)

28S4P: 9.250 wide x 7.0 long (23.5cm x 18cm)

28S2P: 9.250 wide x 4.0 long (23.5cm x 10cm)

These are standard sizes. Custom sizes and voltage can be quoted.

We use the tab for hanging the pack in our twin landing gear and motor housing.
