

**PROJECT 615**

Following the Christmas Day Bombing Project 615 launched a "Nashville Strong" T-Shirt campaign. All proceeds from the t-shirt sales were distributed to several local charities and non-profits including Box 55. Project 615 made a generous contribution to Box 55 in early 2021 once the campaign ended.

**AMAZON**

Following the Christmas Day Bombing Amazon reached out wanting to help. They made a generous donation to Box 55 which helped us catch up, since we were not able to fundraise in 2020 due to the pandemic.

**DET DISTRIBUTING CO**

DET Distributing is a local partner that has helped Box 55 many times by donating water. Recently DET donated two pallets of Essentia PH water.

**COMMUNITY COFFEE**

Community Coffee has been the exclusive coffee brand that Box 55 carries. For years Community Coffee has donated their products to Box 55.

**EIGHT EVP**

For years Richard Griffey and his team at Eight EVP have been great partners for Box 55. Eight EVP is the provider that handles the installation of all emergency equipment, interior power components, and electronics outfitting in our vehicles.

**NEELY COBLE CO**

For years locally owned Neely Coble Co has been the official Freightliner Dealer in Nashville. We purchased both our 2016 and 2020 Freightliner Sprinters from them, and have used them many times for maintenance and mechanical repairs. At the beginning of 2020 Neely Coble replaced the engine in our 2016 Sprinter at a heavily discounted rate. In 2021 Neely Coble was sold, and the new owners are ceasing sales and repairs to Sprinter vehicles.
