

***DBA: LSP PRECISION MACHINING***

Lebanon Screw Products, Inc. is a CNC and Swiss screw machine job shop in the northern part of the Connecticut River Valley in Windsor, the birthplace of Vermont. We are a family business and have proudly been in operation since 1977.

Our capabilities are extremely varied as we have experience producing many different components for very different industries. Some of the industries we produce for include medical, optical, motion control, photonics, fiber optic and microwave. We also produce a variety of products for portable automotive devices including oncar machining rotor matching units, specialized pipeline modification tools and we produce many specialized products for the defense sector with our FFL license.

We stand behind our quality work. We produce product to your order and print specifications. We work dock to stock for many of our vendors who are ISO9000 certified to provide them with product that is ready to go into assembly at your facility.

At Lebanon Screw Products, Inc. our SPC based quality control system guarantees the highest quality at competitive prices. In addition to the normal range of machinery capabilities, our specialties include the following:

Machining of Exotic Metals, including heat treated steels, Boron Nitride as well as stainless steels, aluminum, high temperature plastics and titanium. Our typical production runs from are as few as 10 to as many as you require, depending on part configuration.

*List of Machine Fleet:*

**MAIER SWISS TYPE LATHE/MULTI AXIS  
FIRST OP WORK COMPATIBLE  
MACHINES (6)**

**DOOSAN LATHE (1)**

**MIYANO LATHE (1)**

**SAMSUNG LATHE (1)**

**LYNX LATHE (1)**

**KITAMURA MULTI AXIS MACHINING  
CENTERS (2)**

**SURFACE GRINDER LARGE TABLE (1)**

**AUTOMATIC PROGRAMABLE BANDSAW  
(1)**

**LARGE MANUAL LATHE FOR CUSTOM  
PROJECTS AND TOOL DESIGN  
CREATION (1)**

**GORTON MANUAL MILL (1)**

**NICHOLS AUTOMATIC SAW (1)**

**BROWN AND SHARP NO. 2 AUTOMATIC  
(1)**

**ZETA LASE XL LASER ENGRAVING  
MACHINE (1)**

**KEYANCE IM8000 VIDEO INSPECTION  
MACHINE (1)**

**FINISH TUMBLE MACHINES (3)**

**BEAD BLASTING FOR CUSTOM FINISH  
(1)**

**BLACK OXIDE AND MANGANESE  
PHOSPHATE SURFACE FINISHING  
SYSTEM (1)**

**ULTRA SONIC SINK FOR SURFACE  
CLEANING AND REMOVING  
IMPURATIES ON PRODUCT SURFACES  
(1)**
