

Prescribing S4 Nicotine Vaping

RACGP Guidelines

In the absence of an evidence base for how to prescribe these products for therapeutic use, practice points have been developed to minimise risk to prescribers and patients, including:

- Nicotine vaping products are currently not approved therapeutic products, and it is valid and reasonable for medical practitioners to opt not to prescribe them
- If prescribing, use the Authorised Prescriber or Special Access Scheme prescribing pathways instead of the Personal Importation Scheme to minimise the risk of the patient receiving imported products that do not meet the *TGO 110 requirements*
- These include requirements on labelling, child-resistant packaging, and the prohibition of other active ingredients beside nicotine
- Avoid prescribing free-base nicotine at concentrations over 20mg/mL and limit the quantity of nicotine vaping products per prescription to a maximum of three months' supply (and align the duration of supply with the timing of follow-up)
- Avoid the use of flavours or limit these to just tobacco flavour since flavouring chemicals are not standardised and their safety for inhalation into the lung is not known
- Provide follow up, as well as behavioural support

A script for Wild

We have provided a translation of the RACGP guidelines, applied to our Australian standard Wild by Instinct products.

- HOW TO WRITE A PRESCRIPTION

All prescriptions should include:

- Brand name: WILD BY INSTINCT
- Nicotine liquid for inhalation for smoking cessation (i.e.. 18mg or 50mg Nicotine Salts)
- Flavour: Tropical, Cool Mint, Wild Harvest, Orchard Volume/Dosage of liquid & number of pods for a 2 week
- supply (e.g. 1 x 1ml pod per day x 14 days = 14 x Wild 1ml Pods)
- Number of repeats

Example: WILD 50mg/ml pods

50mg/ml NICOTINE SALT WILD BY INSTINCT PREFILLED POD

Nicotine liquid for inhalation for smoking cessation

Flavours: Wild Harvest, Cool Mint, Tropical, Orchard, Forest Berry

Needs appropriate Wild By Instinct device

Dosage: 1 x 1ml pod per day for 90 days

Qty: 14 pods (7 packs)

Repeats: 3

Example: WILD 18mg/ml pods

18mg/ml NICOTINE SALT WILD BY INSTINCT PREFILLED POD

Nicotine liquid for inhalation for smoking cessation

Flavours: Wild Harvest, Cool Mint, Tropical, Orchard, Forest Berry

Needs appropriate Wild By Instinct device

Dosage: 1 x 1ml pod per day for 90 days

Qty: 14 pods (7 packs)

Repeats: 3

Now in prescription database

WILD BYINSTINCT is now in the MIMs, Best Practice & Medical Director prescription databases.

We continue to work on securing listings in remaining prescription databases

Ask your database provider to add WILD BYINSTINCT

The screenshot shows a software window titled 'New Rx' with a search bar containing 'WILD'. Below the search bar is a table of 'Available formulations' with columns for Product name, Quantity, Rpts, Restriction, BPP, and TGP/S. The first row is selected, and its details are shown in a larger view below the table.

Product name	Quantity	Rpts	Restriction	BPP	TGP/S
Wild by Instinct Wild Harvest 18mg/mL L...	2x1mL	0	Non PBS	\$ 0.00	\$ 0.00
Wild by Instinct Cool Mint 18mg/mL Liquid	2x1mL	0	Non PBS	\$ 0.00	\$ 0.00
Wild by Instinct Tropical 18mg/mL Liquid	2x1mL	0	Non PBS	\$ 0.00	\$ 0.00
Wild by Instinct Orchard 18mg/mL Liquid	2x1mL	0	Non PBS	\$ 0.00	\$ 0.00
Wild by Instinct Wild Harvest 50mg/mL L...	2x1mL	0	Non PBS	\$ 0.00	\$ 0.00
Wild by Instinct Cool Mint 50mg/mL Liquid	2x1mL	0	Non PBS	\$ 0.00	\$ 0.00

Wild by Instinct Wild Harvest 18mg/mL Liquid
Generic name: Nicotine, Propylene glycol 18mg/mL
Schedule: NSW: 4, QLD: 4, VIC: 4, SA: 4, WA: 4, TAS: 4, ACT: 4, NT: 4
PBS Listing: Non PBS - 2x1mL and 0 repeats
