

## Go Mobile Assets – Narrative Description of Activities (Updated July 2025)

Go Mobile Assets™ is a veteran-led nonprofit dedicated to improving access, dignity, and opportunity for U.S. military veterans.

Founded by a service-connected disabled veteran in 2025, our mission began with one clear goal: help fellow veterans navigate life after service with fewer obstacles and more support.

We are building a mobile support infrastructure that starts with free valet and non-emergency transportation services for veterans. Our focus is to improve access to medical appointments and services while creating meaningful, purpose-driven employment opportunities for veterans.

### What We're Doing Now:

- Offering free valet and transitional job opportunities to veterans
- Launching transportation programs for VA appointments and essential local travel
- Partnering with VA staff and community providers across Massachusetts

We are built by veterans, for veterans — and we're here to serve with integrity, compassion, and action.

Doug Linnell

President, Go Mobile Assets™
