

Classroom Policy: Scent-Sensitive Environment

Applicable to: All Students, Staff, and Visitors

1. Purpose

Our classroom strives to be a safe, healthy, and productive learning environment for everyone. Strong fragrances, including perfumes, colognes, and heavily scented lotions, can cause significant health issues for individuals with asthma, severe allergies, chemical sensitivities, or migraines. To ensure all students and staff can work and learn without discomfort or physical reaction, this classroom is a "Fragrance-Free Zone".

2. Prohibited Items

Students, Staff, and visitors are asked to refrain from applying or wearing scented products while in the classroom, including but not limited to:

- Perfumes and colognes
- Body sprays and body mists
- Scented lotions and body creams
- Strongly scented hair products (hairspray, mousse)
- Scented essential oils
- Air fresheners or aerosol sprays

3. Expectations

- Minimal Scent Policy: Please ensure that any personal care products (soaps, deodorants) used before coming to school are low-scent or unscented.
- No Spraying: Do not use aerosol products or body sprays inside the classroom or business.
- Voluntary Compliance: We appreciate everyone's cooperation in creating a safe space for those with environmental sensitivities.
- Questions? Please give us a call at (847) 683-4730

Thank you
