TRAINING THAT BUILDS CONFIDENCE
Keep Stepping Up.

Hand-Held Stem Injection

Targeted application. Practical skills. Safe operation.

This one-day course provides learners with the knowledge and practical skills required to prepare, set up and use hand-held pesticide stem injection equipment safely and effectively. Learners will also develop key skills in calibration, application, decontamination and storage.

DURATION
1 Day Training

DELIVERY
Leominster or suitable locations across the UK

SUITABLE FOR
Agriculture • Horticulture • Forestry

COURSE TYPE
Lantra Training Course

About This Course

This course is designed for people who use, or are preparing to use, stem injection as a method of pesticide application.

Through a mix of theory and practical training, learners will develop skills in preparing and calibrating stem injection equipment, selecting needles, applying pesticides safely and effectively, and completing decontamination and storage procedures.

Why Choose 7Y Training?

✓ Experienced, qualified instructors

✓ Practical, engaging training

✓ Accredited qualifications

✓ Training available across the UK

✓ Friendly, personal service

Prerequisite: Learners should have completed the Safe Use of Pesticides course before attending.
