

OhioPatriots.Org, Inc. (this page has been modified since printing, to make the links “live”)

This officially registered Ohio Non-profit Corporation has a distinct mission and is currently directed by Brad Lynnet. I am NOT the only one involved, as I am working closely with many other area leaders with similar missions and goals. *My mission* with the website and communication systems is information distribution and education.

Mainstream Media does the exact same thing, they just have entirely different agendas. I see no need to dwell on anything they say. Those are all, by design, deliberate distractions – intended to waste our time “worrying” about what the left is doing. Even most of the supposed “good news” out there is nothing but distraction.

My focus is to go around all of that. WE need to find the THINKERS among us. I need to know WHO you are; those who have the ability to discover and harness proven concepts and create strategies of our own, not being guided by others’ failures. If that’s you, please reach out to me at Brad.Lynnet@ohpatriots.org.

IT & Communications:

We have several ways to get you information and to maintain communications between us all.

- **The Website** - Currently there is one website under two different names, so no matter how you type it, you reach the same website pages. To date (since Mid-December), the website has reached over 50,000 visitors... that’s about 650 per day! If you haven’t already, [Sign-up for our Newsletters](#).
 - OHpatriots.org or
 - OhioPatriots.org
 - Please explore the website. There is a LOT of information already there. The best way to find it all is by visiting the [Website Directory](#) page. Come back often. It’s growing daily!
I encourage all Patriots to participate by contributing to the website. Using the [forms provided](#) on the website, please send information on:
 - Known events or events you want publicized
 - Contact information for any other like-minded Groups or Individuals
 - Good News that helps us to “forward the action”
 - [Submit “Incident Reports”](#) for any “mask violations” as someone among us is collecting those for a proposed class-action lawsuit. (All reports are confidential)
- **Email & Newsletters**
 - Currently, ALL bulk email communications (Newsletters) will arrive from “donotreply@ohpatriots.org”. (That may change as other “mission critical” email communications may come from other email addresses) It would be beneficial to add that address to your Contact List to prevent those messages from being routed to your “spam” folder. If you no longer wish to receive those messages, please unsubscribe to them. (Each message has a “clickable link” to do that. Please don’t report them as spam)
- **Telephone 440-363-0750**. You can call this number anytime to hear:
 - **Critical announcements** such as same-day meeting schedule or location changes (like we had on President’s day due to weather).
Same thing for any bus trip schedule changes and last-minute departure location change, (like we had on Jan 6. when Trump asked us to arrive 2 hours earlier than originally planned, and the “sabotage” of our planned departure location.
 - **Text message relay system**. We also now have the capacity to send OUT text messages, but those are only as good as your phone’s settings, so be sure to add “Ohio Patriots” and the number, 440-363-0750 to your Contact List, so you don’t miss them.
 - **You may also leave a message there**. You will get a reply as soon as possible.

- **Telegram** - this is an excellent replacement for all social media, but it has many other beneficial uses for you. I HIGHLY recommend you get the app on your phone and computer.
 - It's far more secure than your phone's built in text message, and just as easily used
 - Download it here <https://telegram.org/>, follow the simple instructions and set it up
 - Tell your social media, and *all* of your friends, you are there.
 - There are many existing groups you can join.
 - OhioPatriots is there, currently only by Invitation. More information on how to get involved with us (and others).. with links, will be sent to you via email within the next few days.
- **Marketing** - everything YOU can do helps us find more people to get involved.
 - **Send the website address** to everyone you email if you wish to spread the word to them.
 - **Post it** on any social media
 - **Bumperstickers.** Believe it or not, those things are responsible for drawing about 20% Of the traffic to the website! Many of you, somewhat understandably, don't wish to "stick" them to your vehicle, but if you only put them in your rear window or on your dashboard while driving really helps (grab a couple on your way out!)
 - **Mini stickers.** These are a new idea. Thank Horatiu for the concept of "sticking them on gas pumps" when you get gas. They have a QR code on them that when scanned by a phone, it opens up a specific news story on the website. That "story" will be updated on a regular basis. Some strips of those stickers are available on your way out. **[the QR Code was on this printed page, but simply [Click Here](#) to see what the "scan" would give you!]**
- **Petitions/Letters**
 - There are already some important ones available. There will be more on the website as we get them in. One in particular, entitled "Hands off Trump" is available today at the door. I encourage you to go to THAT website and sign the petition (of course, *after* you read what it entails)
 - I printed 100 of them, if there are none left, you can read about it and sign here: https://www.larouchepac.com/hands_off_trump Don't *just* sign this yourself, send this to everyone you know and have them sign it too. It's *extremely important*.
- **Bus Trips** – That's what put OhioPatriots "on the map"! While there aren't any trips currently scheduled, you can be assured they *are planned* and will be forthcoming. We have several dozen buses at our disposal from *anywhere in Ohio* with only a few day's notice. A capacity of over 3500 Patriots at 56 seats per bus! This is a totally non-profit service offered by OhioPatriots.org, Inc.
 - We have the automated reservation software and payment systems in place.
 - If *you need a bus for your group* (minimum 45 people to be cost effective), our system makes it super-simple. The software does all the work. All that *any coordinator* really needs to do is find a departure location, let people know about your trip, and collect tickets on the day of. Most other responsibilities are ours, including collecting payments (the *biggest* pain, if you've ever tried doing this!), acquisition of luxury motor-coaches (we have those in-place right now), and all ancillary services required. We have already negotiated the best charter-bus rates than you could likely find on your own – anywhere in Ohio.
 - For more information on bus charters for your area, please ask Brad.Lynnet@ohpatriots.org
