DebOrAh is an expansion catalyst with the ability to amplify your intended results in ways that add priceless value to your event. In December 2006, DebOrAh opened the doorway to her genius after a powerful energy session. From a space deep within, the words, “I AM here. I AM here. I AM here.” pierced her lips after a transformational Chakra clearing. In the ten days that followed, she lost 15 pounds, wrote a book and downloaded the vision for her life path. Eight years later, two years after *Light Language* and *Heart Songs* began flowing through her, she was called in telepathically by a group of masters in the field of unity consciousness. This group of adult non verbal autistics were the teachers in her advanced training. Today, DebOrAh uses energy, vibration and frequency to position the subconscious, conscious and super-conscious for transformation. Her Presence alone helps activate, align and attune the heart and mind to the higher frequencies of Peace. DebOrAh’s 528 Hz heart songs break through limitation to awaken True Genius.

Deborah has more than thirty years experience engaging, enlightening and empowering others to live their highest potential. She is known as a teacher, mentor and guide who connects heart to heart in ways that are beyond words. She speaks, signs, sings, and gazes *Language of Light* empowering world peace. Deborah is a Freedom Writer Teacher and author of *Become* and co-author of the New York Times Best Seller, *Teaching Hope*.
