

## **Code of Ethics**

This Code of Ethics defines the fundamental principles that guide my actions and decisions in the performance of consulting activities in the fields of Cybersecurity and Digital Forensics. I am committed to operating in accordance with the highest standards of integrity, professionalism, accountability, and fairness, ensuring ethical conduct in every operational context.

### **1. Equality and respect for the individual**

I promote a professional environment founded on respect for and the dignity of every individual, without any form of discrimination, valuing diversity and fostering inclusion.

### **2. Fairness and integrity**

I am committed to adopting decisions and policies based on principles of fairness, impartiality, and integrity, ensuring equitable and consistent treatment of clients, collaborators, and partners.

### **3. Confidentiality and data protection**

I safeguard the privacy and confidentiality of the information processed, in full compliance with applicable data protection regulations, ensuring the highest level of confidentiality and the responsible use of information.

### **4. Protection of individuals and the environment**

I operate with due regard for the well-being of the individuals involved and promote responsible and sustainable practices aimed at protecting the environment and minimizing the negative impact of professional activities.

### **5. Honesty and integrity**

I act with honesty, integrity, and loyalty in all professional relationships, avoiding any conduct that could compromise the trust of clients, partners, and the wider community.

### **6. Impartiality and independence**

I carry out my activities independently and impartially, avoiding conflicts of interest and basing all assessments on objective, technical, and professional criteria.

### **7. Transparency and accountability**

I adopt clear, accurate, and transparent communication, providing complete and truthful information regarding the services offered, operational methods, and any limitations of engagement.

This Code of Ethics represents a concrete commitment to clients, partners, and society as a whole. I expect all those who collaborate with me to share these principles and to actively contribute to the creation and maintenance of an ethical, responsible, and high-standard professional environment.
