

20 TEACHER S.M.A.R.T.

GOAL IDEAS

1. I will include at least 1 partner activity once every 2 days all year long.

2. I will include at least 1 group activity every week of instruction.

3. I will have all work graded and returned to students within 1 week of collecting them.

4. I will include at least 1 way to check understanding and correct any errors or mistakes each day except test days.

5. I will include at least one project-based learning activity once every 2 weeks for the entire year.

6. I will call or email every parent of any student who is earning a C- or below at the end of each quarter or trimester.

7. I will greet students at the door as they walk into my class by saying "Hello" to them at least 4 days per week.

8. At least once each week, I will go out during lunch to see what my students are doing and connect with them outside of class for 10 minutes.

9. I will incorporate a fun and engaging game-style of learning into my lessons at least once every 2 days of the week.

10. I will have students use 1 form of technology to help them learn at least once each week.

11. I will have students work on and complete a project at least once each month. They will have to present their project to the class.

12. I will give students exam reviews for 2 days before exams, and 3 days before finals.

13. I will make sure to declutter and organize my room completely once every 2 weeks on Fridays. I will monitor my progress with this goal monthly.

14. I will do 1 activity with my students each month to help with their social-emotional development.

15. I will time every lesson carefully to make sure I have an introduction, a short time for direct/indirect instruction, checking understanding, and guided practice all year long.

16. I plan on having 0 absences to work this entire year, except if there are emergencies or sicknesses.

17. I will have students make at least 1 SMART goal with specific action plans that I can help them monitor on a quarterly basis throughout the school year.

18. I will incorporate 1 activity at least once each month that incorporates learning by leaving the classroom (reading outside, measuring outside, etc.).

19. I will tie at least 1 thing from real life for every new lesson I teach to show students how what they learn is connected to real life. I will monitor my progress weekly.

20. I will use a timer to make sure I start and finish my lesson plan components on time, such as the introduction, the direct instruction, the checking understanding, etc.
