

What insurance policies should you typically think about purchasing?

An Organized Approach to Insurance for Personal Needs

HOMEOWNER, CONDO, OR RENTERS INSURANCE

If you have a home-based business be sure to get that covered in the policy. If you have one or two expensive items, like pieces of art, or a collection of some kind, be sure to get those quoted.

PERSONAL VEHICLES, INCLUDING RECREATIONAL, BOATS, MOTORCYCLES

Depending on the age of the vehicles, you might want to get comprehensive coverage so they can be covered in case of theft.

EARTHQUAKE OR FLOOD INSURANCE

Depending on where you live, you should look into getting flood insurance or earthquake insurance. Certain areas are prone to these disasters while others are not.

LIFE, HEALTH, AND SUPPLEMENTAL INSURANCE

Life insurance could be pretty inexpensive if you purchase at a young age and you are in good health. Most people have health insurance coverage through work. Supplemental insurance is much like Aflac.
