

Why have I not been promoted yet?

Ask yourself these 10 questions.

1 Have I received a good evaluation from my supervisor in the past 2 years?

2 Do I know my areas of weakness and am I working hard to improve upon them?

3 Do I get my work done on time each time without falling behind?

4 Do I get along with the other coworkers?

5 Have I asked for honest feedback from others on what I need to improve?

6 Do the people in my organization actually know that I want to be promoted?

7 Do I complain to others about my workload and about my organization?

8 Am I taking classes or additional assignments to learn and develop my skills more?

9 Do I take a lot of days off (use all my sick days each year)?

10 Does my attitude and appearance show others that I am a leader?
