

BLEACH

BUD™

BLEACH AND WATER DISPENSING SYSTEM

What is BleachBud™?

BleachBud™ is the only Bleach and Water Dispensing System, designed specifically for child care programs! Using just a garden hose and generic bleach, your program can make ALL your cleaning solution bottles in minutes! No mess, no headaches!

How does BleachBud™ work?

With BleachBud's™ proprietary technology, it can dispense three different bleach and water solutions on demand. Simply press the dispense lever, and the system mixes either Diaper Surface, Food Surface, and Toy Soaking solutions.

How do I get a BleachBud™ at my program?

Simply reach out to us online at www.bleachbud.com, email us at bleachbudny@gmail.com or call us at 518-213-7677 today!

BleachBud™

How much \$\$\$ can a BleachBud™ save you?

It's a simple question, really. **BleachBud™** is the fastest and most accurate way to mix bleach and water cleaning solutions. To compare, just ask yourself, *"how long do we spend each day making bleach bottles?"*

Current Minutes Spent Per Day:	Estimated Annual Savings:
10 minutes	\$566
20 minutes	\$1,133
30 minutes	\$1,700
40 minutes	\$2,266

How is this possible? Because programs who use **BleachBud™** can make ALL their bottles for the day in minutes, compared to programs mixing by hand. So, what takes one center a half hour each day, is only taking you two to five minutes. **That time ADDS UP!**

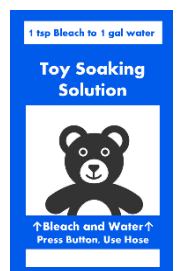

What do you need to use a BleachBud™?

- Generic bleach and a garden hose - **that's it!** Using an existing faucet or water line, you can easily hook up your system!

Three Different Solutions Dispensed On-Demand:

- Not only can you make all your bleach bottles in seconds, but now you can easily fill a bin with toy soaking solution – **FAST!** Need to clean all the blocks? Could the dinosaurs use a good soak? Now you can do it every night, easily!

Order your BleachBud™ today!!
