

BLEACH BUD™

BLEACH AND WATER DISPENSING SYSTEM

What is BleachBud™?

BleachBud™ is a Bleach and Water Dispensing System, specifically designed by child care owners, for child care owners! Using just a water line and generic bleach, your program can make ALL your cleaning solution bottles in minutes! No mess, no headaches!

How does BleachBud™ work?

With BleachBud's™ proprietary technology, it can dispense three different bleach and water solutions on demand. Simply press the dispense lever, and the system mixes either Diaper Surface, Food Surface, and Toy Soaking solutions.

How do I get a BleachBud™ at my program?

Great! Simply reach out to us online at www.bleachbud.com, email us at bleachbudny@gmail.com or call us at 518-727-2012 today!

How do you make daily cleaning bottles?

- BleachBud™, the Bleach and Water Dispensing System, allows child care programs to make all their mandatory daily cleaning bottles in minutes!
- No more mixing bleach and water by hand! Simply press the dispense lever, and the system immediately mixes either Diaper Surface, Food Surface, or Toy Soaking Solutions. BleachBud™ can dispense one bottle in under 5 seconds!
- Expensive chemicals? Not with BleachBud™! Using any generic brand bleach and a water line, BleachBud™ is the most cost-effective way to make daily cleaning bottles.

Three Different Solutions:

What do you need to use a BleachBud™?

- Bleach and water, **that's it!** The BleachBud™ System does not require electricity or complicated installation. Simply get three bottles of generic bleach, screw in your system, attach your water line, and your good to go!
