SUMMARY

I am an enthusiastic and motivated junior UX/Product designer with a background in Nursing. I have strong attention to detail, excellent interpersonal skills and am a super quick learner. I can thrive in a high pressure environment with minimal supervision but also collaborate with other professionals to be a valuable member of a team. I love finding creative solutions to design problems and crafting beautiful, user centred designs that are accessible and can be used by everyone.

EXPERIENCE

Volunteer UX Designer 01/2024 - Present

Connected To Culture

- Collaborating with a large team of other volunteer UX designers/researchers and developers to create a mobile travel app.
- Working closely with product owner to channel her visions and ensure alignment with user needs and organizational goals.

UX Design Internship 09/2023 - 12/2023

Pirum Systems

- Owned a number of projects involving managing stakeholders and working to deadlines.
- Creating high fidelity, interactive prototypes on Figma across web and mobile.
- Robust Figma skills including auto layout and variants.
- Using the design system library to ensure consistent styling and user experience across my design workflows, in line with other products.
- Completed beginner and advanced courses in Google Analytics.

Clinical Nurse Specialist 09/2022 - 03/2023

The Royal Marsden NHS Foundation Trust

- Advocating for rights and wellbeing of my patients, managing difficult conversations with compassion.
- Undertaking holistic assessments including addressing accessibility factors such as eyesight, hearing and mobility.

Senior Staff Nurse 03/2022 - 08/2023

Guy's and St Thomas' NHS Foundation Trust

- Organising tasks by priority with high attention to detail for patient safety.
- Leadership skills, continuous improvement and implementing change.
- Critical thinking and problem solving.

Staff Nurse 09/2020 - 03/2021

Guy's and St Thomas' NHS Foundation Trust

- Adaptability, time management, quick and accurate decision making.

EDUCATION

PGDip Adult Nursing 2018 - 2020

King's College London, University of London Merit

MSci Psychology 2012 - 2016

University of Nottingham 2:1

SKILLS

Figma

Using the design system library to creating interactive, responsive prototypes.

Communication

Empathising, active listening, working with stakeholders, advocating for users.

ACHIEVEMENTS

Growth as a Designer during my internship

I am proud of the volume of knowledge and skills I have acquired and how I have used this to make an impact by creating thoughtful, functional products.

Caring for patients during the COVID-19 pandemic

Being there for patients when their family could not be there for them. I am proud of being there for our NHS and patients during this unforgettable time.

HOBBIES + PASSIONS

Jump rope

Watch me jump!
<https://www.instagram.com/amb.jumps/>

Olympic Weightlifting/ Yoga

Playing Guitar

Backpacking

I love meeting and connecting with new people from all over the world experiencing new places and cultures.
