

# BERGEN MEDICAL ASSOCIATES

A Premier Medical Alliance Partner

January 15, 2019

To whom this may concern:

I had the privilege of working with Stephen Bellosi during my tenure as Chief Financial Officer for an emerging Multi-Specialty Medical Group in Bergen County.

The group was comprised of several established practices under a shared services model. As part of an expanded delivery system, a captive insurance company was founded, with the physicians as the seeding group of insureds. Benefits, malpractice and other insurance programs were all key components of the integrated platform of services offered to physicians and support staff.

As such, I worked closely with Stephen as part of a management team which we helped develop. In my dealings with Stephen, I found him to be highly knowledgeable in a multitude of malpractice and other benefits issues, including regulatory treatment across multiple states. Beyond being extremely competent, his attention to detail and commitment to client service made him an invaluable resource, with whom I continue to interact and consult professionally.

I am fully confident he will be a valued team member and advisor to whichever clients he chooses to partner with.

Sincerely,

Thomas J. Frangione  
Chief Financial Officer
