# American Values Replaced by DEI “Values”

**How do we fix  
America's higher  
educational  
system?**

Return higher education to its original purpose:

- To pursue the truth for the sake of human flourishing
- To pass on the knowledge that is the basis of our exceptional civilization

**How?**

**Uproot the noxious DEI ideology  
which caused and causes this mess**

**Commit to intellectual  
freedom not ideology**

**Do away with double  
standards on speech**

**Hiring based on merit**

**Not sending our checks and our children to  
schools that betray liberal and American values**
