

# 3 in 1 - Lock Set

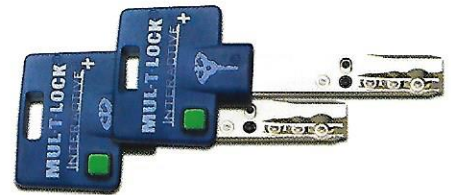

## Advanced High Security Key Technology

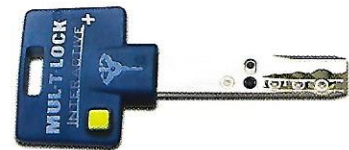

High Security Coded Cards...  
for Enhanced Key Control

### ...In the Beginning...

- Step 1.** Your locksmith installs a High Security 3 in 1 Mortise or Cylinder Lock... with it you get a master set consisting of 2 green, 1 yellow, and 1 red Interactive+ key, each with its own matching colour coded card for reproducing the keys.
- Step 2.** Use the Green Coded Card... to have a Mul-T-Lock authorized locksmith make a green coded key for each employee or family member needing a key.

### Someone Loses a Key...

- Step 1.** Insert the Yellow Master Key and turn it... all green keys are locked out. Only yellow coded keys will unlock the door.
- Step 2.** Use the Yellow Coded Card... to have a Mul-T-Lock authorized locksmith make a yellow coded key for each employee or family member needing a key.

### Someone Loses a Key...

- Step 1.** Insert the Red Master Key and turn it... all green and yellow keys are locked out. Only red coded keys will unlock the door.
- Step 2.** Use the Red Coded Card... to have a Mul-T-Lock authorized locksmith make a red coded key for each employee or family member needing a key.

When a red key goes missing... the lock can be re-programmed by a Mul-T-Lock authorized Locksmith
