

## FRESHWATER FORMULAS

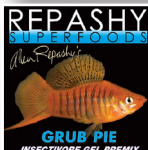

### COMMUNITY PLUS

Our Omnivore formula with proteins coming from a balance of plant, vertebrate, and invertebrate sources that is a great all around formula for a diversely populated tank.

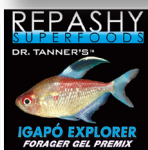

### BOTTOM SCRATCHER

Our specialized meal for invertivores. This formula contains no fish meal. Main ingredients are all invertebrate-based containing Black Soldier Fly Larvae Meal, Mussel Meal, Squid Meal, and Krill Meal as the primary sources of proteins and fats.

### GRUB PIE - FISH

Our Black Soldier Fly Larvae-Based (>75%) Meal Replacement Gel for Insectivorous Species of Tropical Fish. Great for Livebearers, Gouramis, Catfish and even Amphibians. Insects are raised in the USA!

### IGAPÓ EXPLORER

Our formula for all Rainforest Species. Contains Invertebrates, Nuts, Fruits, Seeds, Legumes, Herbs and Greens.

### MORNING WOOD

Our high fiber, firmer-gelling, longer-lasting formula for wood rasping species of fish and detritus feeding invertebrates.

### SPAWN & GROW - FRESHWATER

Our Spawn & Grow gel premix formula designed for Broodstock conditioning, initial raising of fry and revitalizing newly imported specimens. It contains high levels of fat (>14%) and Protein (>45%), which gives fish that extra source of energy and nutrients they need to build the reserves required for spawning, recovery and fast growth.

### SOILENT GREEN

Our Meal Replacement Gel for Aufwuchs (Algae and Small Living Organisms) Eating Species of Fish, Invertebrates, Amphibians and Reptiles. Featuring Algae and Crustaceans as the primary food sources.

### SUPER GREEN

Our Vegan Algae-Based formula for Freshwater green algae-grazing species of fish and invertebrates. Features Chlorella and Spirulina algae as the primary sources of nutrition.

### SUPER GOLD

Specifically developed for excellent digestion and nutrition in Goldfish & Koi. Easy to make premix, featuring a wide-spectrum of Quality Ingredients.
