I pride myself on making sure my kittens are healthy, happy, loved and socialized w/ other cats, kittens and dogs. Kittens stay at the cattery until they are 12 weeks old and are fully vaccinated and examined by licensed Veterinarian Dr. Matthew Kelso @ Eudora Animal Hospital in Eudora Kansas. Kittens are also dewormed, microchipped, given 1 month of flea prevention, spayed or neutered. and tested for FeLV/FIV. All of my breeding program cats are DNA tested for over 49 different genetic abnormalities or defects to ensure that I minimize producing cats with genetic defects.

Thank you kindly for choosing Sunshine Siamese Cattery for your new furry family member whom will be sure to light up your life and bring you endless amounts of love and joy!

Peace & Love,
