

How much are you missing out on because of your catheter?

Eversun Healthcare has partnered with Coloplast to help you make the switch to a SpeediCath® Catheter!

Maintaining a hygienic catheterisation routine may be more difficult with your current catheter, especially outside of the home.

If your catheter is holding you back from enjoying life outside the home, switching to a **SpeediCath hydrophilic catheter** can help make this a possibility.

SpeediCath Catheters are:

Pre-lubricated and instantly ready to use

Designed with an easy opening and smooth pre-lubricated coating, providing a solution that is instantly ready to use, wherever you may be.

Designed for increased control

The SpeediCath range are designed to make catheterisation easy, with better control so you don't have to touch the catheter.

Proven to reduce Urinary Tract Infections

Using a SpeediCath catheter has been proven to **reduce UTIs by 21%** compared to uncoated intermittent catheters¹, giving you the confidence to live your life the way you want.

Eversun Healthcare and Coloplast have partnered to support you with your intermittent catheter needs. For a limited time, sign up to Coloplast IC Care and receive a **FREE** box of ready-to-use Speedicath intermittent catheters.

Coloplast IC Care

Less struggle. More living.

The personal support program for intermittent catheter (IC) users
