

# CONSOLE DESIGN

- Ideal console size is 15ft (L) x 2ft (W) x 3 ft (H), Console must be sturdy enough to support weight of the artist standing on it.
- CDJs must be at the same height as the mixer and must not be raised or positioned on stands. CDJs must be at MINIMUM height of 3 feet from ground surface. Space should be left on the right hand side for The Artist's laptop.
- Decks should be on a solid and stable surface, free from any vibration or movement.
- Decks must be draped at the front & sides to hide wiring
