THE SAGA CONCLUDES... HALO 3 LIMITED EDITION

The Mission: The Covenant control Earth. The Flood is unleashed. With the fate of the galaxy hanging in the balance, Master Chief is the only one that can save the human race. The entire epic story arc has led up to this moment. Master Chief, the last of his kind, is a warrior born for combat, bred for war... and humanity's only hope.

The Blockbuster Saga Concludes: After stowing away on a Forerunner spacecraft, Master Chief, a genetically altered, cybernetically enhanced Spartan supersoldier, must race back to Earth to stop the Covenant once and for all and save mankind. With his artificial intelligence companion Cortana in the grip of the Flood's intelligent embodiment, Gravemind, Master Chief and his allies are vastly outnumbered. But the stakes are too high to do anything but face them head on.

A Desperate Enemy. A Desperate War: In "Halo 3" the third installment of this legendary epic, the war has come to a climax - the Flood continue to grow in numbers and strength, the armies of Earth are scattered and decimated, and the Covenant threaten to activate the Halo, effectively destroying all life in the galaxy. Master Chief's mission: to stop the Covenant, destroy the impending Flood threat and ultimately save mankind.

The Limited Edition includes a copy of "Halo 3" in a sleek metal collector's case as well as the following content:

- High definition "Making of Halo 3" documentary
- Featurettes on game design, development, and more...
- Early game concepts and their evolution over the course of "Halo 3's" development
- Audio-video calibration tool custom designed by the "Halo 3" graphics and audio team
- Elaborate and compelling "Halo" fiction and art book

Available while stocks last.

In "Shadowrun" players vie for supremacy in an intense first-person shooter (FPS) experience that rewards cleverness, cunning and split-second improvisation through a unique combination of modern weapons, ancient magic and advanced technology. FASA Studio, the creative minds behind "MechWarrior" and "Crimson Skies," and John Howard, lead designer on "Halo," are back with "Shadowrun," the new multiplayer FPS based on the much-beloved role-playing game (RPG) franchise. Up to 16 players can battle together across Xbox 360 and Windows Vista through the Xbox LIVE and Games for Windows — LIVE gaming and entertainment network.

Features

- Rich legacy brought to life. After a 5,000-year absence, magic has returned to the world of 2021, and global corporations battle a relentless ancient order to harness this reawakened power. Be a part of the RNA, a global megacorporation, and bring order (and profit) to a world of chaos. Or join the Lineage to keep magic wild and free at all costs. Choose a side and wage war for the future of magic in the new world of "Shadowrun."
- Gameplay: Changing Magic and Tech. Dive into a universe where ancient magic co-exists with deadly weaponry and experience a revolution in FPS gaming. Upgrade your character by purchasing advanced technology and magic for each round in an extraordinary arms race to improve your abilities and open new tactics for your team. Magic and Tech offers these capabilities:
- Enhanced Vision: Use your cybernetic eye to spot your enemy through walls. Teleport: Teleport through obstacles and behind your opponents in the blink of an eye.
- Resurrect: Bring fallen comrades back into battle and link their life-essence to yours.
- Intense cross-platform multiplayer action. For the first time, Xbox 360 and Windows Vista gamers can compete as a team or as foes. "Shadowrun" tears down the walls between friends and gamer communities on the console and PC by allowing up to 16 gamers to play together, regardless of platform. Not only does "Shadowrun" bring these communities together, it allows gamers to answer the eternal question, "Which is the more efficient FPS control scheme, controller or mouse and keyboard?" "Shadowrun" also brings together the features gamers love on Xbox LIVE, such as gamertags, achievement points, friends lists and integrated voice, onto the PC through Games for Windows — LIVE.
- The ultimate online (and offline) battlefield. Fight against or alongside AI teammates or join up with friends against all comers via System Link and Xbox LIVE. Fill out your team with intelligent AI characters that respond to your tactical commands and provide an unparalleled team experience. Train offline with the robust AI, or play through a host of training sessions as you master the magic and technology of "Shadowrun."

Become the ultimate ninja assassin!
Master the ancient art of stealth.

Features

- Experience all-new ninja gameplay!** Immerse yourself in ancient Japan as you take on more than 50 different missions — from espionage to assassination to hostage rescue — for both single and co-op play, offering a new level of ninja gameplay available only on Xbox 360™.
- Play as a ninja strike team with your friends!** Work cooperatively for a completely different ninja experience. Team up with a friend to finish off your foe. Let a friend subdue him from behind as you run him through with your katana.
- Hone your ninja skills!** Use sound, smell and sight to master the "Stealth Kill." Scale walls, fly over rooftops and spring from the shadows to attack without detection as you eliminate even the toughest opponents with one devastating blow.
- Customise your character!** Create a hero to match your own playing style from a variety of different looks and attributes. Choose from a wide array of ninja weaponry and more than 130 unique ninja fighting actions.
