

VOTE NO! ***TO FREDDIE'S*** ***SCHEME!***

BMWED Members will vote soon to decide whether they agree with President Simpson's attempt to dissolve our current Systems and Federations as our Union is in the middle of both National Bargaining and addressing the COVID-19 pandemic and response. A ballot will arrive in your mailbox in early December. A "NO" vote will mean:

- ***An End to Yet Another of Freddie's Wasteful Spending Sprees.*** — President Simpson seeks to hold expensive, unnecessary "founding" conventions mere months away from our National Convention to push through a scheme filled with vague promises, but suspiciously light on real substance or details. A NO vote will tell President Simpson and his supporters to get their attention back on bargaining a better contract and advocating for our members, instead of demolishing our current Systems and Federations for their vague ideas of "progress."
- ***Keeping the Systems that have made Progress for You.*** — President Simpson wants the Systems and Federations to pay for the lack of action by the National Division, blaming System and Federation officers for the current challenges our Union faces. This blatant attempt to erase the record demonstrates he is more concerned with his legacy than in upholding the solid, honest work our Systems and Federations have done on our members' behalf.
