

ABOUT US

We are experts in worldwide air ambulance transportation, and providing professional and equipped medical escorts and long distance ambulance transportation.

When an emergency situation arises it is important to know you have reliable, and efficient support at your side. The transportation of patients is a sensitive matter, but we will help you deal with the situation, help you with all the relevant information and provide assistance to help you reach the right decisions.

AIR has to date successfully brought hundreds of patients safely back home. We have hubs on several continents.

TESTIMONIALS

My husband experienced an emergency situation and needed to be transported to the mainland. Alert International Rescue was amazing. They were prompt in arranging the transport and then kept me informed through the entire process since I was not in Roatan at the time. He was able to arrive in San Pedro Sula in a prompt time which allowed him to receive the continued life saving care he needed. Without their prompt and competent care he would not have had the same outcome

- Wendy Lynn Taylor.

Alert International Rescue was amazing - a long time needed here in West Bay. Professional care, took care of negotiating with the insurance company, and flew me to San Pedro Sula where I could get the required tests and specialists after a head injury. The team was awesome and a special thanks to Dra. Miriam Castro - she accompanied me to SPS and she spoke flawless English and explained everything as we went along. Their ambulance service was also excellent - a 'real' ambulance with all the equipment, not a 'retrofitted van' - 5 stars for these guys for sure!!

- Carolyn Belfor

Alert international rescue saved my dad when he had a stroke. They brought him the quick, experienced care he needed! Thank you!

- Amy Panek

5 stars! Excellent service and quality of time, always ready for any emergency.

- Bristle Escoto
