

Hi Ashley,

I just pulled up the report and looked over the RBA indicators on the YE reports. I wasn't working here until after the dates (I started June 17th) for the report, and relied on staff from those departments for their numbers. What exactly do you need? I will need to ask the people in charge of those areas for their information. Starting with the next report I should be able to answer those questions myself.

Thanks,
Brian Williard

Subject: RBA Indicators on United Way YE Report

Hi Brian,

I hope you are having a wonderful day. I am reaching out to you to discuss the RBA Indicators on the YE reports for Salvation Army. I am currently doing research for marketing and I need some information from all of our agency reports. I have a few questions that need to be asked before I am able to move forward. Would we be able to set aside some time tomorrow, Wednesday, September 11th to go over the reports together?

Let me know what time would work best for you. I would say no more than 15 minutes of your time on the phone. I am open any time, except from 2-2:30pm.

Thank you,
Ashley H.
