Select Amount of Beef: Quarter / Half / Whole

Understanding Your Cost

Price is determined by the weight of the animal. On average a Steer will weight approx. 1200lb. Once brought to packing facility they will calculate the hang weight. On average a Steers hang weight is approx. 700-750lb. below is the calculation. The processing charges are paid to the packing facility. If you have questions please contact J & L.

Hang Weight X \$4.00 = Price + Processing Charges

Customer Agreement

I understand that by signed this form I have reserved the amount of beef selected above. I have sent J & L Cattle Company **20%** of the fee to reserve the beef. When signing this form I understand that I have made a **financial commitment** to J & L Cattle Company to pay the price of **\$4.00** per pound hang weight.
