Now with the days getting noticeably longer (by 2 minutes and 7 seconds each day) we still have time to organize our thoughts and complaints about the long hot dog days of summer ahead.

Personally, anything below 70 deg. is freezing. It should be 78 deg. all year long and then come summer; it should get warm.

If you drive by the field, you will see the brown grass that is all uniform in appearance. The park manager complimented us and the landscaper for maintaining the grounds as well as we do.

Here is an **illustration** of what we have been plotting and planning over the past year. In the event you weren't part of the conversation, the Bureau of Parks has given us permission to install a clubhouse (shed) on state property. This is a huge waiver we earned from the state. Nick, the park manager, was instrumental in securing this exception. Nick and Ed have spent countless hours ironing out the logistics.

Hope everyone's projects are all doing well, and everyone is doing as well.

See you all later.

Respectfully,
Kyle Snyder
Club Secretary
