### Feature 1

#### **Business Card SIM**

Make handing out a business card into a memorable experience. Using augmented reality, your business cards can be product catalogs, talking figures, information sharing systems and memorable impressions. Our expert team will craft the perfect experience to make your card stick out among the rest.

### Feature 2

#### **Interactive Immersive Video**

Our cutting-edge videos seamlessly blends technology and marketing. Using your smartphone, delve into an augmented reality journey unlike anything you have experienced. Tailored to your specifics, our experts will create a new world to dazzle and tantalize customers.

### Feature 3

#### **Pipeline AI**

Leverage automation to streamline your sales, marketing, and customer interactions. Do emails, text blasts and social media posts all from one platform. Create websites, forms, surveys, and funnels. Automate processes to save time and money. 24/7 tech support is available to serve your needs.
