

Welcome to the City of Plains Comprehensive Plan Survey

The City of Plains is updating our joint comprehensive plan. A good plan can improve our chances of securing State and Federal funding assistance to address the issues confronting us and to capitalize on future opportunities. This type of plan needs public input; so, in addition to the participation at publicly advertised meetings, you are asked to help develop the community's vision for a better, brighter future.

Your answers to these few simple questions will help identify overall community and economic development needs and opportunities, establish community goals, identify preferred land uses, and develop a five-year work program to address the issues.

1. What is most appealing about living here?
2. What is most unappealing about living here?
3. What issues or concerns threaten the community's future well-being?
4. What opportunities should be pursued to make this a better place to live?

Thank you for participating in this survey!
