

CONSTANTLY TAKE INVENTORY OF  
WHAT'S IMPORTANT TO YOU.

---

*Dave Chappelle*

---

Simple  
Cloud based  
Inventory Control system

**Print Labels**

Easily print barcode labels for bulk, pack or single stock keeping units

**Record Stock**

Keep track of your stock by record incoming stock and movements between locations

**Manage Locations**

Define and barcode label your stock keeping locations and bins to have absolute control over where your stock is located

**Count and verify stock**

Use sequential stock counts with multiple users to get accurate stock levels and keep your system up to date with variance reports

**Pick and Issue stock against orders**

Accurately pick stock against orders or user references to ensure the correct products are shipped

**Live Reports**

Take advantage of various intuitive stock reports on live data such as: Current stock levels, Re-order points, Stock value and more

**Cloud based**

Easy to deploy and secure data storage in the cloud. Access from anywhere and with any device. PC, Mobile Computer Scanner, Tablet or Smartphone (Android)

**Start scanning straight out of the box**

BoB was designed to enable users to start printing labels and record stock movements straight out of the box
