FORENSIC BONE IDENTIFICATION: HUMAN VS. ANIMAL BONES AT THE SCENE

\$80.00

CLASS DETAILS

June 19, 2026

11:00 AM - 2:00 PM EST

Live Webinar

Link will be provided to participants via email on the day of the webinar.

Instructor: Dr. Meredith Tise

- Owner and Forensic Anthropologist

Class is approved for 3 hours of ABMDI & IAI Crime Scene Recertification credits.

This webinar is designed specifically for crime scene investigators, medicolegal death investigators, and major crimes/homicide detectives seeking a comprehensive understanding of distinguishing between human and animal bones in forensic contexts. The course will provide participants with the knowledge and practical skills necessary to identify skeletal remains and differentiate between human and non-human bones.

Key Topics Include:

- Introduction to Human Osteology
- Human Bone Identification
- Animal Bone Identification
- Case Studies and Practical Applications
- Legal and Ethical Considerations

By the end of this webinar, participants will have strong foundational knowledge of the human skeletal system and the differences between human and non-human skeletal remains.
