SEARCH AND RECOVERY OF HUMAN REMAINS IN FIRE SCENES

\$80.00

CLASS DETAILS

**April 30, 2026
11:00 AM - 2:00 PM EST**

Live Webinar - Link will be provided to participants via email on the day of the webinar.

Instructors:

Dr. Meredith Tise & Dr. Kyra Stull
Forensic Anthropologists

Class is approved for 3 hours of ABMDI & IAI Crime Scene Recertification credits.

Gain a deeper understanding of the complex process of searching and recovering human remains in fire scenes in this engaging 3-hour live webinar. Designed for crime scene investigators, detectives, death investigators, and search and rescue personnel, this training explores types of fire scenes, recovery techniques, documentation, and collaborative approaches.

Key Topics Include:

- Identifying human remains altered by fire
- Search and excavation techniques in burned environments
- Safety, access, and interagency coordination
- Documentation and evidence handling
- Recovery protocols in mass fatality and disaster scenarios

This training equips investigators with the knowledge and strategies needed to conduct professional, evidence-based search and recovery operations in the most complex fire scenes.
